Contract Amendment 1: Contract #CC232820010 - JCI

Kim Hopkins-Will

The Commission approved a contract with JCI to monitor the Operations Center fire alarm on June 25th. JCI, on their own, came back and offered us a lower price and better terms.

The price is reduced from $850 annually to $600. The term is reduced from three years to one year, with options to renew.

Attorney Fax has reviewed Amendment #1.

I recommend approving Amendment #1 to JCI Contract #CC232820010 for Fire alarm monitoring.

MEMORANDUM OF AGREEMENT
AMONG THE USDA-FOREST SERVICE, MARK TWAIN NATIONAL FOREST,
THE
MISSOURI STATE HISTORIC PRESERVATION OFFICER,
THE OSAGE NATION, AND
THE CHRISTIAN COUNTY COMMISSION,
REGARDING THE FY25 RED BRIDGE ROAD IMPROVEMENT PROJECT,
CHRISTIAN COUNTY, MISSOURI

WHEREAS, the USDA-Forest Service, Mark Twain National Forest (hereinafter "the Forest") has determined that consultation on proposed activities that might affect historic properties on National Forest System lands or under the direct or indirect jurisdiction of the agency per 36 CFR 800.16(y) must be conducted in order for the Forest Supervisor and other agency officials to take such effects into account in evaluating alternatives and in making decisions pursuant to Section 106 of the National Historic Preservation Act of 1966, as amended (80 Stat. 9 15 et seq.; 16 U.S.C. 470 et seq.); and

WHEREAS, the Forest, in consultation with the Missouri Department of Transportation, has determined that Bridge No. 4330004 (hereafter referred to as “the Red Bridge”) carrying Red Bridge Road (County Road H-14) over Bull Creek on the Ava Management Unit of the Forest in Christian County, Missouri (FS Site No. 09052100949; 23CN2119) is an early 20th century pinned Pratt pony truss bridge that is eligible for listing on the National Register of Historic Places (NRHP); and

WHEREAS, the Forest, in consultation with the Missouri Department of Transportation and the Christian County Highway Department, has determined that the Red Bridge is structurally unsound and is neither safe nor suitable for ongoing, modern usage and needs to be replaced; and

WHEREAS, the Forest plans to approve and permit the Red Bridge Road Improvement Project (undertaking) on behalf of the Christian County Commission pursuant to the Federal Land Policy and Management Act of 1976, as Amended (Public Law 94–579, 43 U.S.C. §§ 1701–1782); and

WHEREAS, the undertaking consists of providing the Christian County Commission with a temporary construction and right-of-way permit to realign a portion of Red Bridge Road, replacing the existing historical Red Bridge over Bull Creek with a modern, triple-span bridge to be constructed on the new, ca. 800 foot long approach roadway (including the new bridge), and to rehabilitate the ca. 550 foot long segment of roadway proposed for abandonment; and

WHEREAS, the Forest has defined the undertaking’s Area of Potential Effects (APE) for the Red Bridge Road Improvement Project as comprising ca. 2.5 acres (1.6 acres of National Forest System lands and 0.9 acres of private property) for construction-related and other ground disturbing activities, including the active stream channel/gravel bars, the locations of the historical Red Bridge and road alignment, the newly proposed road alignment and bridge, and all temporary construction and clearing easements. Maps depicting the APE are included in Attachment A; and

WHEREAS, the duties of the Missouri State Historic Preservation Officer (SHPO) pursuant to Section 106 of the National Historic Preservation Act and 36 CFR Part 800 include responsibilities to advise, assist, review, and consult with Federal agencies as they carry out their historic preservation responsibilities and to respond to Federal agencies' requests within a specified period of time; and

WHEREAS, the Forest has determined that the undertaking would have an adverse effect on the Red Bridge, which is eligible for listing in the NRHP, and has consulted with the SHPO pursuant to 36 CFR Part 800, the regulations implementing Section 106 of the National Historic Preservation Act (54 U.S.C. § 306108), as well as the processes defined in the 2019 Section 106 Programmatic Agreement (hereinafter "the 2019 Section 106 PA") among the Forest, the Advisory Council on Historic Preservation (ACHP), federally recognized Tribal partners, and the Missouri SHPO in accordance with 36 CFR 800.14; and

WHEREAS, under Stipulation VII.B (*Buildings and Structures Provisions/Resolving Adverse Effects*) of the 2019 Section 106 PA, the Forest is further obliged to follow the stipulations and protocols put forth in the 2008 Programmatic Agreement among the Forest, the Missouri SHPO, and the ACHP for the Realignment of Historic Properties on the Forest, as amended in 2018 (hereinafter "the 2018 Realignment PA"); and

WHEREAS, the Forest has consulted with the Osage Nation regarding the effects of the undertaking on historic properties and at their request has invited them to participate in this Memorandum of Agreement (MOA) as an invited signatory; and

WHEREAS, the Forest has consulted with the Christian County Commission and at their request has invited them to participate in this Memorandum of Agreement (MOA) as an invited signatory; and

WHEREAS, the Forest has invited the National Trust for Historic Preservation, the Sac and Fox Nation of Oklahoma (both concurring parties to the 2008 Realignment PA), as well as Missouri Preservation, the Legacy Retreat Center, and Dr. Robert Kipfer, the affected private landowner, to participate in this MOA as concurring parties; and

WHEREAS, the Osage Nation has elected to participate in this MOA as an invited signatory; and

WHEREAS, the Christian County Commission has elected to participate in this MOA as an invited signatory; and

WHEREAS, the Sac and Fox Nation of Oklahoma has declined to participate in the MOA, but has requested notification should archeological materials be encountered during any phase of the bridge project; and

WHEREAS, the National Trust for Historic Preservation has not responded to the Forest's invitation, to date; and

WHEREAS, Missouri Preservation has elected to participate in the MOA as a concurring party, but has offered no additional comment, to date; and

WHEREAS, the Legacy Retreat Center has declined to participate in the MOA; and

WHEREAS, Dr. Robert Kipfer has elected to participate in this MOA as a concurring party; and

WHEREAS, in accordance with 36 CFR § 800.6(a)(1) as well as Stipulation VII.B of the 2019 Section 106 PA and Stipulation G.1.b of the 2008 Realignment PA, the Forest notified the ACHP of its adverse effect determination with specified documentation on May 21, 2026, and the ACHP has chosen *not to* participate in the consultation pursuant to 36 CFR § 800.6(a)(1)(iii) on June 1, 2026; and

NOW, THEREFORE, the Forest, the Missouri SHPO, the Osage Nation, and the Christian County Commission agree that the undertaking shall be implemented in accordance with the following stipulations in order to take into account the effect of the undertaking on historic properties.

If the Forest determines that such objection cannot be resolved, the Forest will:

A. Forward all documentation relevant to the dispute, including the Forest's proposed resolution, to the ACHP. The Forest will then proceed according to its final decision.
