1:30 p.m. Sheriff's Department Re: Software Proposal

The meeting was attended by Commission Secretary Cindy Childress.

The Commission met with Captain Brian Cathey and Blanca Mallonee to discuss a software program for record management. Captain Cathey explained to the Commission the direction the Sheriff is pursuing for record management. The Sheriff is proposing having one server designated for record management. The server would run on a software package called Cobra. The Cobra system interfaces with the cities and with 20 surrounding counties for data sharing. Christian County would act as a silo to funnel information to all the entities. The Sheriff's Department has secured \$ 100,000.00 in grant funds from the Department of Justice with another \$ 100,000 for next year.

Presiding Commissioner John Grubaugh asked, "How does this software integrate with what the cities currently have?"

Captain Cathey spoke with Ozark Police Chief Hodges and Nixa Police Chief Bacon and they were supportive of the new technology and with no additional cost to them. This is a progressive system that would enable the Sheriff's Department to expand for crime analysis, provide mobile capabilities in the cars, work with E-911 and share information with other agencies.

Presiding Commissioner John Grubaugh suggested putting out a RFP out to several companies which includes a local service maintenance agreement.

The Sheriff's Department will prepare the RFP to be sent to various companies.
