Contract Award JSCO 2021-001 for Antenna Radar Units

Kim Hopkins-Will

Christian County Sheriff's Office would like to piggyback off of Jasper County's Contract #JSCO 2021-001 (which was competitively bid) to purchase four STALKER Antenna radar units from TurnKey Mobile Incorporated.

Attorney Fax has reviewed the contract.

Cost: $13,260.00

My recommendation is to approve the use of Jasper County's Contract #JSCO 2021-001 to purchase Antenna radar units.

Terms & Conditions
Looking forward to doing business with you. Shipping Charges are not included unless otherwise stated.

Note: Product, descriptions, and available inventory are updated frequently and may change without notice. The pricing provided in this quote is based on current market conditions and is subject to change due to various factors, including but not limited to supply chain changes and external economic conditions, including tariffs. To prevent raising prices across the board, Turn Key Mobile passes on international manufacturer surcharges and tariff fees as a separate line item on invoices.

All PO placed orders have net 30 day terms, no discounts. All full/partial invoice payments are due in NET30 terms, unless otherwise stated in contract. If order contains equipment with or without services, payment for all hardware and/or product delivered is expected to be paid upon delivery (to customer and/or service/installation provider). Services will not be invoiced until complete and approved. Credit card payments are accepted with a 3% Service Charge added to the overall invoice price. This Service Charge will be displayed as a separate line item. ACH payments are also accepted with no processing or service fees. An ACH form can be requested by email at AR@turnkeymobile.com.

Return Policy: All PANASONIC sales are final. ONLY Panasonic can make exceptions for returns. Any items or materials that are approved to be

Authorized Acceptance Signature

Turn-Key Mobile, Inc.

February 18, 2026

Jasper County Commissioners Office
302 S. Main
Jasper County Courthouse, Room 101
Carthage, MO 64836

Greetings:

Turn-Key Mobile, Inc., (TKM) would like to thank the Jasper County Commission for the opportunity to provide the Law Enforcement Vehicle needs as requested in Request for Proposal 2026-002 JCSO. TKM has responded to your Request for Proposal in the format provided.

As President of Turn-Key Mobile, Inc., I, Michael Southard, can assure the Jasper County Commission that all information in this RFP is accurate to the best of my knowledge. If chosen as the successful bidder, Turn-Key Mobile looks forward to providing upgrades, additional hardware and software, installation, and maintenance services.

The prices contained in this proposal are guaranteed for a term of not less than one year from the date of contract award.

TKM makes the following statements as asked in the RFP:

1. TKM does not represent a disadvantaged business enterprise.
2. All items proposed are manufactured, produced or assembled in the United States.
3. Delivery time for all goods purposed will be 30 days from the date of award or receipt of a purchase order.
4. TKM is willing to enter into a cooperative procurement agreement with Jasper County Sheriff's Office as allowed in RSMo. 34.046

Sincerely,

Michael Southard

GOVERNMENT PROCUREMENT CONTRACT: IT EQUIPMENT & SERVICES

CONTRACT NUMBER: JCSO 2026-001 Computer/Network Technology Prime Vendor

REVISION 2.0 EFFECTIVE DATE: August 1, 2026

1. PARTIES

This Agreement is entered into between JASPER COUNTY SHERIFF'S OFFICE ("Client"), located at 231 S MAIN ST, CARTHAGE MO 64836, and TURN-KEY MOBILE INC ("Contractor"), located at 4510 COUNTRY CLUB DRIVE, JEFFERSON CITY, MO 65109.

2. SCOPE OF SERVICES & EQUIPMENT

The Contractor shall provide the equipment and services detailed in the "REQUEST FOR PROPOSAL 2026-001 COMPUTER AND NETWORK TECHNOLOGY PRIME VENDOR CONTRACT" submitted to and opened by the Jasper County (MO) Commission on February 24, 2026, and awarded by the Commission at a regularly stated meeting on March 3, 2026, at 9 AM.

3. MODIFICATIONS

The parties may, by mutual written agreement, amend the scope of products and services provided under this Agreement to reflect evolving industry standards or manufacturer updates. Any such amendment shall be executed in writing and signed by authorized representatives of both parties.

4. TERM & TERMINATION

- Term: This Agreement commences on the Effective Date and continues for 5 years.
- Termination for Convenience: The Client may terminate this contract with 30 days written notice.
- Termination for Cause: Either party may terminate immediately upon a material breach not cured within 15 days.

5. COMPENSATION & PAYMENT

- Payment Terms: Net 30 days upon receipt of a valid invoice.
- Milestones: Invoices shall be triggered by Delivery, Final Testing, or certain Services being rendered.

6. CONFIDENTIALITY & DATA SECURITY

The Contractor shall comply with all applicable government data privacy laws. All data processed by the Contractor remains the sole property of the Client. The Contractor must implement administrative, physical, and technical safeguards to protect such data.

7. INTELLECTUAL PROPERTY

Unless otherwise specified, any custom software or documentation developed specifically for the Client shall be considered "work made for hire" and owned by the Client.

8. COMPLIANCE WITH LAWS

The Contractor agrees to comply with all Local, state, and federal laws, including equal employment opportunity, anti-kickback statutes, and security clearance requirements for personnel.

9. INDEMNIFICATION & LIABILITY

The Contractor shall indemnify and hold harmless the Client against all third-party claims arising from the Contractor's performance or infringement of intellectual property rights.

EFFECTIVE DATE: April 1, 2026

1. PARTIES

This Agreement is entered into between JASPER COUNTY SHERIFF'S OFFICE ("Client"), located at 231 S MAIN ST, CARTHAGE MO 64836, and TURN-KEY MOBILE INC ("Contractor"), located at 4510 COUNTRY CLUB DRIVE, JEFFERSON CITY, MO 65109.

2. SCOPE OF SERVICES & EQUIPMENT

The Contractor shall provide the equipment and services detailed in the "REQUEST FOR PROPOSAL 2026-001 COMPUTER AND NETWORK TECHNOLOGY PRIME VENDOR CONTRACT" submitted to and opened by the Jasper County (MO) Commission on February 24, 2026, and awarded by the Commission at a regularly stated meeting on March 3, 2026, at 9 AM.

3. MODIFICATIONS

The parties may, by mutual written agreement, amend the scope of products and services provided under this Agreement to reflect evolving industry standards or manufacturer updates. Any such amendment shall be executed in writing and signed by authorized representatives of both parties.

4. TERM & TERMINATION

- **Term:** This Agreement commences on the Effective Date and continues for 5 years.
- **Termination for Convenience:** The Client may terminate this contract with 30 days written notice.
- **Termination for Cause:** Either party may terminate immediately upon a material breach not cured within 15 days.

5. COMPENSATION & PAYMENT

- **Payment Terms:** Net 30 days upon receipt of a valid invoice.
- **Milestones:** Invoices shall be triggered by Delivery, Final Testing, or certain Services being rendered.

6. CONFIDENTIALITY & DATA SECURITY

The Contractor shall comply with all applicable government data privacy laws. All data processed by the Contractor remains the sole property of the Client. The Contractor must implement administrative, physical, and technical safeguards to protect such data.

7. INTELLECTUAL PROPERTY

Unless otherwise specified, any custom software or documentation developed specifically for the Client shall be considered "work made for hire" and owned by the Client.

8. COMPLIANCE WITH LAWS

The Contractor agrees to comply with all local, state, and federal laws, including equal employment opportunity, anti-kickback statutes, and security clearance requirements for personnel.

9. INDEMNIFICATION & LIABILITY

The Contractor shall indemnify and hold harmless the Client against all third-party claims arising from the Contractor's performance or infringement of intellectual property rights.

ACC	CP-R2105E1Y	1-YR NETCLOUD MOBILE PERFORMANCE 5G ROUTER ESSENTIALS PLAN, AND R2105 ROUTER WITH WIFI (5G MODEM, 4FF SIM OPTIONAL BUT NOT INCLUDED), INTEGRATED ANTENNAS, NO AC POWER SUPPLY, GLOBAL
ACC	HA-40LVDA0H	Havis Vehicle Docking Station Power Bundle - Advanced Port Replication - for Panasonic TOUGHBOOK 40 with No Antenna Pass thru. USB-A (3), USB-C (3), HDMI, Serial, Ethernet (2). Includes diagnostic LED, one front USB-C, two video out (HDMI + one USB-C), rear USB-C's are 10Gbps and 1.5A. Havis Power Supply Included 120W Non-Isolated DC to DC Power Supply with 15.6VDC, 12-16VIN
ACC	HA-40LVDS4H	Havis Vehicle Docking Station Power Bundle - Standard Port Replication - for Panasonic TOUGHBOOK 40 with Quad Antenna Pass thru USB-A (3), USB-C (3), Serial, Ethernet (2), Quad RF. Includes diagnostic LED, one front USB-C, rear USB-C's are 10Gbps and 1.5A. Havis Power Supply Included 120W Non-Isolated DC to DC Power Supply with 15.6VDC, 12-16VIN
ACC	HA-40LVDA4H	Havis Vehicle Docking Station Power Bundle - Advanced Port Replication - for Panasonic TOUGHBOOK 40 with Quad Antenna Pass thru. USB-A (3), USB-C (3), HDMI, Serial, Ethernet (2). Includes diagnostic LED, one front USB-C, two video out (HDMI + one USB-C), rear USB-C's are 10Gbps and 1.5A. Havis Power Supply Included 120W Non-Isolated DC to DC Power Supply with 15.6VDC, 12-16VIN
ACC	HA-40LVDS0H	Havis Vehicle Docking Station Power Bundle - Standard Port Replication - for Panasonic TOUGHBOOK 40 with No Antenna Pass thru USB-A (3), USB-C (3), Serial, Ethernet (2), Quad RF. Includes diagnostic LED, one front USB-C, rear USB-C's are 10Gbps and 1.5A. Havis Power Supply Included 120W Non-Isolated DC to DC Power Supply with 15.6VDC, 12-16VIN
ACC	HA-UNKBM1001	Premium Package Rugged Keyboard With Mount (Includes Emergency Key) -ncludes Havis Rugged keyboard with emergency key, patented Rugged keyboard mount, height adjusting bracket & Articulating swivel arms
ACC	HA-UNHDMCKD	Heavy-Duty Computer Monitor / Keyboard Mount And Motion Device - PKG,DEVMT,ACTADP,MNTRKYB,MNTR,TS,
ACC	HA-55LVDLT0	Havis Lite Vehicle Dock (no pass) for Panasonic TOUGHBOOK 55 & 54. USB-A (2), Serial, LAN.
ACC	HA-55LVDLT2	Havis Lite Vehicle Dock (dual pass) for Panasonic TOUGHBOOK 55 & 54. USB-A (2) Serial, LAN, Dual RF.
ACC	HA-55LVD0	Havis Premium Vehicle Dock (no pass) for Panasonic TOUGHBOOK 55 & 54. USB-A (2), Serial, LAN, HDMI, VGA.
ACC	HA-55LVD2	Havis Premium Vehicle Dock (dual pass) for Panasonic TOUGHBOOK 55 & 54. USB-A (2) Serial, LAN, HDMI, VGA, Dual RF.
ACC	HA-55LVC	HAVIS CRADLE FOR PANASONIC'S TOUGHBOOK 54 AND 55 RUGGED LAPTOP
ACC	HA-40LVC	Havis Vehicle Cradle (no electronics) for Panasonic TOUGHBOOK 40.
ACC	HA-40LVDS0	Havis Lite Vehicle Dock (no pass) for Panasonic TOUGHBOOK 40. USB-A (3), USB-C (3), Serial, Ethernet (2). Includes diagnostic LED, one front USB-C, rear USB-C's are 10Gbps and 1.5A.
ACC	HA-40LVDS4	Havis Lite Vehicle Dock (quad pass) for Panasonic TOUGHBOOK 40. USB-A (3), USB-C (3), Serial, Ethernet (2), Quad RF. Includes diagnostic LED, one front USB-C, rear USB-C's are 10Gbps and 1.5A.
ACC	HA-40LVDA0	Havis Premium Vehicle Dock (no pass) for Panasonic TOUGHBOOK 40. USB-A (3), USB-C (3), HDMI, Serial, Ethernet (2). Includes diagnostic LED, one front USB-C, two video out (HDMI + one USB-C), rear USB-C's are 10Gbps and 1.5A.
ACC	HA-40LVDA4	Havis Premium Vehicle Dock (quad pass) for Panasonic TOUGHBOOK 40. USB-A (3), USB-C (3), HDMI, Serial, Ethernet (2), Quad RF. Includes diagnostic LED, one front USB-C, two video out (HDMI + one USB-C), rear USB-C's are 10Gbps and 1.5A.
ACC	HA-G2LVDS0H	Havis Vehicle Docking Station Power Bundle - Standard Port Replication - for Panasonic TOUGHBOOK G2 2-in-1 and TOUGHBOOK 20 2-in-1, Docking Station with No Pass Thru Antenna Connection USB: fully-powered USB 3.0 (2), Ethernet: RJ45 Ethernet (1), serial: DB9 (9-Pin) connection (1), dock input power: 16.0 v DC - Havis Power Supply Included 120W Non-Isolated DC to DC Power Supply with 15.6VDC, 12-16VIN

Designed using heavy gauge steel for long-term durability. Off set Universal Mounting Step (DS-STEP): The Off set Universal Mounting Step moves the mounting system away from passenger leg space towards the driver. Lower Tube (DS-LOWER-7): The Lower Tube provides vertical clearance over the center console or the seat. Upper Pole (7160-0178): Center Upper Pole allows for closer mounting to the dash and less stress on the vehicle mounting equipment as weight is centered on the pole. Wrench is needed for loosening, tightening or height adjustment. 9 Locking Swing Arm - Mongoose (7160-0220): Locking Slide Arm can rotate around 360° with locking points every 15°. Slide Arm can extend out from 9 to 13 from center pole and locks automatically in the retracted 9 position. Motion Attachment has tilt capabilities up to 90° forward/26° backward and can be swiveled up to 360°. Motion Attachment works with VESA 75mm, Gamber-Johnson 2x4, NEC or AMPS hole patterns.)

Contract Amendment 1: Contract #CC232820010 - JCI

Kim Hopkins-Will

The Commission approved a contract with JCI to monitor the Operations Center fire alarm on June 25th. JCI, on their own, came back and offered us a lower price and better terms.

The price is reduced from $850 annually to $600. The term is reduced from three years to one year, with options to renew.

Attorney Fax has reviewed Amendment #1.

I recommend approving Amendment #1 to JCI Contract #CC232820010 for Fire alarm monitoring.

Memorandum of Agreement - Red Bridge Replacement Project

Miranda Beadles

The County Commission has been invited to be a signatory on a Memorandum of Agreement (MOA) between the County, USDA Forest Service, Missouri State Historic Preservation Office, Osage Nation, Missouri Preservation and Dr. Robert Kipfer. The MOA outlines our efforts to mitigate and monitor any negative effects to the historic or archaelogical impacts to the bridge and surrounding land.

MEMORANDUM OF AGREEMENT
AMONG THE USDA-FOREST SERVICE, MARK TWAIN NATIONAL FOREST,
THE
MISSOURI STATE HISTORIC PRESERVATION OFFICER,
THE OSAGE NATION, AND
THE CHRISTIAN COUNTY COMMISSION,
REGARDING THE FY25 RED BRIDGE ROAD IMPROVEMENT PROJECT,
CHRISTIAN COUNTY, MISSOURI

WHEREAS, the USDA-Forest Service, Mark Twain National Forest (hereinafter "the Forest") has determined that consultation on proposed activities that might affect historic properties on National Forest System lands or under the direct or indirect jurisdiction of the agency per 36 CFR 800.16(y) must be conducted in order for the Forest Supervisor and other agency officials to take such effects into account in evaluating alternatives and in making decisions pursuant to Section 106 of the National Historic Preservation Act of 1966, as amended (80 Stat. 9 15 et seq.; 16 U.S.C. 470 et seq.); and

WHEREAS, the Forest, in consultation with the Missouri Department of Transportation, has determined that Bridge No. 4330004 (hereafter referred to as “the Red Bridge”) carrying Red Bridge Road (County Road H-14) over Bull Creek on the Ava Management Unit of the Forest in Christian County, Missouri (FS Site No. 09052100949; 23CN2119) is an early 20th century pinned Pratt pony truss bridge that is eligible for listing on the National Register of Historic Places (NRHP); and

WHEREAS, the Forest, in consultation with the Missouri Department of Transportation and the Christian County Highway Department, has determined that the Red Bridge is structurally unsound and is neither safe nor suitable for ongoing, modern usage and needs to be replaced; and

WHEREAS, the Forest plans to approve and permit the Red Bridge Road Improvement Project (undertaking) on behalf of the Christian County Commission pursuant to the Federal Land Policy and Management Act of 1976, as Amended (Public Law 94–579, 43 U.S.C. §§ 1701–1782); and

WHEREAS, the undertaking consists of providing the Christian County Commission with a temporary construction and right-of-way permit to realign a portion of Red Bridge Road, replacing the existing historical Red Bridge over Bull Creek with a modern, triple-span bridge to be constructed on the new, ca. 800 foot long approach roadway (including the new bridge), and to rehabilitate the ca. 550 foot long segment of roadway proposed for abandonment; and

WHEREAS, the Forest has defined the undertaking’s Area of Potential Effects (APE) for the Red Bridge Road Improvement Project as comprising ca. 2.5 acres (1.6 acres of National Forest System lands and 0.9 acres of private property) for construction-related and other ground disturbing activities, including the active stream channel/gravel bars, the locations of the historical Red Bridge and road alignment, the newly proposed road alignment and bridge, and all temporary construction and clearing easements. Maps depicting the APE are included in Attachment A; and

WHEREAS, the duties of the Missouri State Historic Preservation Officer (SHPO) pursuant to Section 106 of the National Historic Preservation Act and 36 CFR Part 800 include responsibilities to advise, assist, review, and consult with Federal agencies as they carry out their historic preservation responsibilities and to respond to Federal agencies' requests within a specified period of time; and

WHEREAS, the Forest has determined that the undertaking would have an adverse effect on the Red Bridge, which is eligible for listing in the NRHP, and has consulted with the SHPO pursuant to 36 CFR Part 800, the regulations implementing Section 106 of the National Historic Preservation Act (54 U.S.C. § 306108), as well as the processes defined in the 2019 Section 106 Programmatic Agreement (hereinafter "the 2019 Section 106 PA") among the Forest, the Advisory Council on Historic Preservation (ACHP), federally recognized Tribal partners, and the Missouri SHPO in accordance with 36 CFR 800.14; and

WHEREAS, under Stipulation VII.B (*Buildings and Structures Provisions/Resolving Adverse Effects*) of the 2019 Section 106 PA, the Forest is further obliged to follow the stipulations and protocols put forth in the 2008 Programmatic Agreement among the Forest, the Missouri SHPO, and the ACHP for the Realignment of Historic Properties on the Forest, as amended in 2018 (hereinafter "the 2018 Realignment PA"); and

WHEREAS, the Forest has consulted with the Osage Nation regarding the effects of the undertaking on historic properties and at their request has invited them to participate in this Memorandum of Agreement (MOA) as an invited signatory; and

WHEREAS, the Forest has consulted with the Christian County Commission and at their request has invited them to participate in this Memorandum of Agreement (MOA) as an invited signatory; and

WHEREAS, the Forest has invited the National Trust for Historic Preservation, the Sac and Fox Nation of Oklahoma (both concurring parties to the 2008 Realignment PA), as well as Missouri Preservation, the Legacy Retreat Center, and Dr. Robert Kipfer, the affected private landowner, to participate in this MOA as concurring parties; and

WHEREAS, the Osage Nation has elected to participate in this MOA as an invited signatory; and

WHEREAS, the Christian County Commission has elected to participate in this MOA as an invited signatory; and

WHEREAS, the Sac and Fox Nation of Oklahoma has declined to participate in the MOA, but has requested notification should archeological materials be encountered during any phase of the bridge project; and

WHEREAS, the National Trust for Historic Preservation has not responded to the Forest's invitation, to date; and

WHEREAS, Missouri Preservation has elected to participate in the MOA as a concurring party, but has offered no additional comment, to date; and

WHEREAS, the Legacy Retreat Center has declined to participate in the MOA; and

WHEREAS, Dr. Robert Kipfer has elected to participate in this MOA as a concurring party; and

WHEREAS, in accordance with 36 CFR § 800.6(a)(1) as well as Stipulation VII.B of the 2019 Section 106 PA and Stipulation G.1.b of the 2008 Realignment PA, the Forest notified the ACHP of its adverse effect determination with specified documentation on May 21, 2026, and the ACHP has chosen *not to* participate in the consultation pursuant to 36 CFR § 800.6(a)(1)(iii) on June 1, 2026; and

NOW, THEREFORE, the Forest, the Missouri SHPO, the Osage Nation, and the Christian County Commission agree that the undertaking shall be implemented in accordance with the following stipulations in order to take into account the effect of the undertaking on historic properties.

STIPULATIONS

The Forest shall ensure that the following measures are carried out by, or under the direction of, a professional who meets or exceeds the Secretary of the Interior's Professional Qualification Standards for History and/or Architectural History (36 CFR Part 61):

I. As discussed with the Missouri SHPO and other consulting parties, the Forest shall prepare or oversee preparation of archival documentation for Red Bridge to the following specifications:

   a. Preparation of historical documentation of the Red Bridge in accordance with Stipulation II.G.1.d of the 2008 Realignment PA which will be of like equivalency to MoDOT's *Level II Bridge Documentation Standards for Section 106 Mitigation of Adverse Effect* (Attachment B).

   b. Prior to implementation of any project activity that could adversely affect the NRHP eligibility of Red Bridge, its character-defining attributes shall be photo-documented as follows:

      i. Photographs shall be consistent with the National Register of Historic Places and National Historic Landmarks Program's 2024 *Consolidated and Updated Photograph Policy* with sufficient coverage to provide overall views of the bridge and its significant details and shall be legibly keyed to a site map.

      ii. The Forest shall consult with the Missouri SHPO regarding the adequacy of the photographic coverage for the bridge and the selection of images for retention.

      iii. The Forest shall provide digital images (TIF or JPEG) to the SHPO, which will maintain the digital images.

iv. The SHPO shall be given 30 days to review and comment on the submittal of photographic documentation. Removal of the Red Bridge may occur once SHPO concurs with the adequacy of photographs, photo log, and photo key map.

c. Provide the Missouri SHPO with a report consisting of digital photographs, photo log, photo key map, and the available historical documentation. The SHPO shall be given 30 days to review and comment on the submittal of the Level II report.

II. In accordance with Stipulation II.H of the 2008 Realignment PA (Interpretive/Archival Preservation), should the currently proposed adaptive re-use of Red Bridge's historical trusses be implemented via aesthetic incorporation into the new bridge, the Forest shall develop (or oversee development of) interpretive signage to be displayed in the vicinity of the new bridge to provide a concise history of the original structure and the purpose of its adaptive reuse.

a. Context for the signage shall include, but not be limited to, the historic context, photographs, and plans compiled from the Level II documentation described above (if available) in order for the signs to convey the historic significance of the Red Bridge.

i. Content development shall be under the supervision and review of personnel meeting Secretary of the Interiors Professional Qualification Standards (48 FR 44738-447389) in History and/or Architectural History.

ii. The Forest shall provide SHPO, and any other interested consulting party, final draft content and mock-up of final design as well as map showing the proposed installation location for review and comment.

iii. SHPO, and any other interested consulting party, shall have 30 calendar days to review and provide comment.

iv. The Forest shall take all comments into consideration and make any necessary revisions for final SHPO acceptance prior to final production and installation.

b. Final installation shall be within one year after completion of construction.

III. The Forest shall ensure that decommissioning activities in the immediate vicinity of historic properties in the Red Bridge Road Improvement Project APE are monitored by a professionally qualified archaeologist.

a. Monitoring shall include preparation of a monitoring report following implementation of such activities.

b. The Forest shall submit this report to the Missouri SHPO and The Osage Nation, as appropriate.
c. The Forest shall prepare a Mark Twain National Forest Archaeological Site Recordation Form update for the Red Bridge Site (FS No. 09052100949; 23CN2119) reflecting any change in its NRHP status, and submit the update to the Missouri SHPO and other interested consulting parties, as appropriate.

IV. DURATION

This MOA will expire if its terms are not carried out within five (5) years from the date of its execution. Prior to such time, the Forest may consult with the other signatories to reconsider the terms of the MOA and amend it in accordance with Stipulation VIII below.

V. POST-REVIEW DISCOVERIES

If properties are discovered that may be historically significant or unanticipated effects on historic properties found, the Forest shall implement the discovery plan included as Attachment C of this MOA.

VI. MONITORING AND REPORTING

Each calendar year following the execution of this MOA until it expires or is terminated, the Forest shall provide all parties to this MOA a summary report detailing work undertaken pursuant to its terms. Such report shall include any scheduling changes proposed, any problems encountered, and any disputes and objections received in the Forest's efforts to carry out the terms of this MOA.

VII. DISPUTE RESOLUTION

Should any signatory or concurring party to this MOA object at any time to any actions proposed or the manner in which the terms of this MOA are implemented, the Forest shall consult with such party to resolve the objection. If the Forest determines that such objection cannot be resolved, the Forest will:

A. Forward all documentation relevant to the dispute, including the Forest's proposed resolution, to the ACHP. The ACHP shall provide the Forest with its advice on the resolution of the objection within thirty (30) days of receiving adequate documentation. Prior to reaching a final decision on the dispute, the Forest shall prepare a written response that takes into account any timely advice or comments regarding the dispute from the ACHP, signatories and concurring parties, and provide them with a copy of this written response. The Forest will then proceed according to its final decision.

B. If the ACHP does not provide its advice regarding the dispute within the thirty (30) day time period, the Forest may make a final decision on the dispute and proceed accordingly. Prior to reaching such a final decision, the Forest shall prepare a written response that takes into account any timely comments regarding the dispute from the signatories and concurring parties to the MOA and provide them and the ACHP with a copy of such written response.

C. The Forest's responsibility to carry out all other actions subject to the terms of this MOA that are not the subject of the dispute remain unchanged.

VIII. AMENDMENTS

This MOA may be amended when such an amendment is agreed to in writing by all signatories. The amendment will be effective on the date a copy signed by all of the signatories is filed with the ACHP.

IX. TERMINATION

If any signatory to this MOA determines that its terms will not or cannot be carried out, that party shall immediately consult with the other parties to attempt to develop an amendment per Stipulation VIII, above. If within thirty (30) days (or another time period agreed to by all signatories) an amendment cannot be reached, any signatory may terminate the MOA upon written notification to the other signatories.

Once the MOA is terminated, and prior to work is continuing on the undertaking, the Forest must either (a) execute an MOA pursuant to 36 CFR § 800.6 or (b) request, take into account, and respond to the comments of the ACHP under 36 CFR § 800.7. The Forest shall notify the signatories as to the course of action it will pursue.

Execution of this MOA by the Forest and SHPO and implementation of its terms evidence that the Forest has taken into account the effects of this undertaking on historic properties and afforded the ACHP an opportunity to comment.

ATTACHMENT B: LEVELS OF BRIDGE DOCUMENTATION FOR SECTION 106 MITIGATION OF ADVERSE EFFECT

Levels of Bridge Documentation (State Level) For Section 106 Mitigation of Adverse Effect

This guidance serves for information purposes, and examples provided are not intended to be considered an inclusive list. The researcher should consider the individual bridge being researched and should develop the themes associated with that bridge. The appropriate level of bridge documentation shall be determined through consultation between the FHWA, SHPO, MoDOT, the local government and other consulting parties.

For all levels of documentation include:

- Location map showing bridge location
- Identifiers (County, Route, Feature crossed, MoDOT or County Bridge Number (Not Fraser Inventory Number), Project Number), include all items on the lists or explain why an item is not included.
- Historic and Common Name(s)
- Historic Photographs if they can be located

Bridge projects described in the State Highway Commission *Biennial Reports* shall be documented at Level I or Level II.

Level I: the highest level of documentation—for bridges over major rivers, for example, the Mississippi or Missouri River or the main tributaries to these rivers, and bridges with Criteria A or B associations as well as Criterion C.

- Drawings—as built or final construction plans for bridge (including rehabs), if extant (if drawings are not available a detailed technical description will be required).
- Photographs* (8" X 10" format) showing elevations of the bridge, substructure, important connections, all span types, and other significant details; images should be taken, printed and labeled according to NRHP/MoSHPO standards.
- Bridge description--A reader friendly bridge description narrative shall include; if bridge plans are not available, this should be a technical description of the bridge. The description should reference the mitigation photographs and plans to identify features of the bridge.
- Written history—should be the product of primary and contemporary sources as much as possible; it should address significant themes associated with the bridge, *for example*:
    - Engineering significance (Criterion C)—explain how and why the bridge is significant from an engineering perspective; discuss its relationship to surviving bridges of the same type in region and state. Also explain:
        - Who designed the bridge? Is it a standard bridge type or did it require modification from standard plans?
        - Who constructed the bridge? Include fabricator and contractor for truss bridges. Were they well-established companies? Did they have history of contracts with the state/county/city? Did they build a large number of bridges? How many of their bridges survive?

- Transportation significance--explain how the bridge fit into the larger transportation system. Consider:
  - Construction of the bridge, including planning and actual construction
  - Address any issues encountered during bridge planning that had to be overcome (opposition, etc.)
  - Address any issues encountered during construction and how they were resolved (weather, etc.)
  - How was the bridge perceived by the community—eagerly anticipated, apathetically, etc.? Was it received differently in various parts of the larger community?
  - Was the bridge built as part of a new road or replacing an earlier crossing? If replacement, of what type—ford, ferry or earlier bridge?
- Social History—did important events associated with American culture occur on the bridge or is it associated with a route significant in American culture? (Examples would be civil rights marches that crossed bridge, bridges associated with Route 66, bridges associated with early farm-to-market roads, bridges associated with seedling miles of highway, etc.)
- Commerce—was the bridge important in the economic development of a community or did local business leaders promote the bridge? If so, explain how they were involved. If the bridge was a toll bridge, explain how the toll structure was set up, who collected the tolls, how long the tolls were collected, if possible what the toll rates were, local attempts to free the bridge, and when it became a free bridge.
- Planning – Was the bridge built or incorporated into a Parkway? Was the bridge built as part of a larger development? Was the planning for the bridge tied up in litigation related to its construction or the construction of an associated highway?
- There may be other broad patterns in American History that the bridge is associated with. Consultation between the SHPO, FHWA, MoDOT, the local government and other consulting parties will help to determine the appropriate areas of significance for the bridge.
- Examples of sources to utilize include: MoDOT Bridge and Commission Records (if State Highway Department Constructed the bridge); County Commission Minutes (if County constructed the bridge); contemporary newspapers; trade journals; diaries; builder or engineering company records; County Histories; etc.
- An example of a Level I mitigation document is the Daniel Boone Bridge available for viewing at: http://library.modot.mo.gov/RDT/reports/historicbridges/Daniel_Boone_Bridge_J1000_Report.pdf

Level II: a moderate level of documentation—for bridges over small rivers/major creeks, with no significant association with historical contexts; it is anticipated that most mitigation will fall into this level. See Level I comments above

- Drawings—as built or final construction plans for bridge (including rehabs), if extant (if drawings are not available a detailed technical description will be required).

- Photographs* (8" X 10" format) showing elevations of the bridge, substructure, important connections, all span types, and other significant details; images should be taken, printed and labeled according to NRHP/MoSHPO standards.
- Bridge description--A reader friendly bridge description; if bridge plans are not available, this should be a technical description of the bridge. The description should reference the mitigation photographs and plans to identify features of the bridge.
- Written history—should be the product of primary and contemporary sources as much as possible; should address significant themes associated with the bridge, *for example*:
    - Engineering significance—explain how and why the bridge is significant from an engineering perspective; discuss its relationship to surviving bridges of the same type in region and state. Also explain:
        - Who designed the bridge? Is it a standard bridge type or did it require modification from standard plans?
        - Who constructed the bridge? Include fabricator and contractor for truss bridges. Were they well-established companies? Did they have history of contracts with the state/county/city? Did they build a large number of bridges? How many of their bridges survive?
    - Transportation significance—explain how the bridge fit into the larger transportation system. Consider:
        - Construction of the bridge, including planning and actual construction
        - Address any issues encountered during bridge planning that had to be overcome (opposition, etc.)
        - Address any issues encountered during construction and how they were resolved (weather, etc.)
        - How was the bridge perceived by the community—eagerly anticipated, apathetically, etc.? Was it received differently in various parts of the larger community?
        - Was the bridge built as part of a new road or replacing an earlier crossing? If replacement, of what type—ford, ferry or earlier bridge?
    - An example of a Level II document is the Branson Bridge and can be viewed at: http://library.modot.mo.gov/RDT/reports/historicbridges/Branson%20Bridge%20J0705R%20Report.pdf.

Level III: a well-documented inventory form with continuation sheets—for bridges over small streams away from populated areas, lettered routes in rural areas; these may include small bridges that were built as part of a large project and bridges which may be contributing to a district or landscape or may be individually eligible and a type with many documented examples. It may also be used when there is a context for the type developed (or being developed) which will explain the overall background for the resources.

- Drawings—as built or final construction plans for bridge (including rehabs), if extant (if drawings are not available a detailed technical description will be required).
- Photographs* (8" X 10" format) showing elevations of the bridge, substructure, important connections, all span types, and other significant details; images should be taken, printed and labeled according to NRHP/MoSHPO standards.

- Completed MoDOT Missouri Bridge Inventory Form. The inventory form should include a footnoted history of the bridge, a brief description, and appropriate illustrations to demonstrate the history and significance of the bridge.
- An example of a Level III document is the St. John's Creek Bridge and can be viewed at: http://library.modot.mo.gov/RDT/reports/historicbridges/N0141_Bridge_Mitigation_Document.pdf.

Level IV: a documented inventory form for bridges over minor crossings (small streams/creeks, highways, railroads, etc.) that are not individually eligible but are contributing resources to a larger historic property. It is anticipated few bridges will qualify for this level of documentation.

- Photographs* (5" X 7" format) showing elevations of the bridge, substructure, important connections, all span types, and other significant details; images should be taken, printed and labeled according to NRHP/MoSHPO standards.
- Completed MoDOT Missouri Bridge Inventory Form. The inventory form should include a concise history of the bridge, a brief description, and statement explaining the significance of the bridge.

ATTACHMENT C: POST-REVIEW DISCOVERY PLAN

In accordance with Stipulation V of the Red Bridge Road Improvement Project Memorandum of Agreement (*Post-Review Discoveries*), the following discovery plan shall be implemented in a manner consistent with the terms of Stipulation XII.A-C (*Inadvertent Discoveries*) and Attachment H (*Protocols for the Treatment of Inadvertently Discovered Human Remains*) of the 2019 Section 106 Programmatic Agreement among the Mark Twain National Forest (MTNF), the Advisory Council on Historic Preservation (ACHP), federally recognized Tribal partners, and the Missouri State Historic Preservation Office (SHPO), as amended (hereinafter "the 2019 Section 106 PA"), pursuant to 36 CFR 800.14:

POST-REVIEW DISCOVERIES

The Tribes, Regional Heritage Program Manager (HPM), and SHPO as appropriate or if Tribal affiliation is affirmed, or other parties as appropriate, will be notified by the MTNF immediately upon discovery that a recorded or previously unidentified historic property has been, or could be, inadvertently affected by an undertaking under the Red Bridge Road Improvement Project MOA.

(A) If the undertaking has not been completed at the time the effect is discovered, all associated activities in the vicinity (100 meters or as determined practicable by an MTNF heritage professional) of the property shall cease and reasonable efforts shall be taken to avoid or minimize harm to the property until consultations are completed and a heritage professional can evaluate the discovery, assess the effects, determine what kind of treatment is warranted, and consult with Tribes and SHPO to determine if the find is eligible or not eligible for listing on the NRHP. In the event that the property is a historic site (standing or partially standing), the buffer will be determined by the heritage professional, pending confirmation by the SHPO.

Consultation will be initiated within seven days between the MTNF, Tribes and/or SHPO or other interested parties as appropriate, to develop an agreed upon response. If agreement cannot be reached, the Tribes and/or SHPO shall provide written comments to the MTNF which will then initiate consultation with the ACHP and request the comment of the ACHP before making a decision on how to proceed with the undertaking. The MTNF will notify the Tribes, and/or SHPO, Regional Heritage Program Manager, and any interested parties of its decision. The terms of the PA do not relieve or substitute the MTNF's responsibilities under NAGPRA, ARPA, or other authorities as appropriate.

(B) If the undertaking has already been concluded when an effect to an historic property has been discovered, the MTNF, Regional HPM, Tribes as appropriate, SHPO, and ACHP (should they choose) shall consult to develop an agreed upon action which the MTNF will implement, and a timetable for implementation. MTNF will notify and submit reports to all consulting parties when the agreed action is complete following the schedule outlined below.

(C) Within six months (or an alternate agreed upon schedule) of the discovery of the inadvertent effect and notifying the Tribes, SHPO, Regional HPM, ACHP, and other interested parties as appropriate, the MTNF shall provide the Regional HPM, Tribes, SHPO, and ACHP (if they are a participant) and other interested parties with a report describing the undertaking and the circumstances surrounding the cause and resolution of the effects. This report must include

information regarding: the type of property affected; the property's NRHP status; the nature of the effects; the date effects were identified; the location of the property (i.e., name of Ranger District); the condition of the property; and other pertinent information, as well as document the MTNF's response to the discovery of the effects and the actions taken to address or resolve the effects.

TREATMENT OF INADVERTENTLY DISCOVERED HUMAN REMAINS

In the event human remains, funerary objects, sacred objects, and objects of cultural patrimony are inadvertently discovered or identified during project implementation, all activities shall cease and the Forest shall comply with the provisions of NAGPRA as outlined in 43 CFR 10. Discovery of any human remains during excavation or evaluation of a historic property requires a full halt to work within a 100-meter buffer. Consultation with Tribes and SHPO shall begin within 48 hours to consider appropriate treatments for human remains discovered in Missouri and to determine if the discovery will be treated under the terms of NAGPRA or in consultation with the SHPO as outlined in Mo. Rev. Stat., Sections 194.400-410 or Section 214.131-132 if a cemetery.

(A) *Inadvertent Discoveries on Federal Lands*

1. Upon a possible inadvertent discovery of human remains or funerary objects, the MTNF archaeologist or contractor shall ensure that work shall cease in the immediate vicinity of the discovery and the remains shall be protected *in situ* from any potential disturbance (including vandalism or theft). This includes the establishment of a one hundred (100)-meter buffer area around the burial to ensure avoidance. The remains shall then be covered with canvas and not exposed to public view.
2. Any inadvertent discovery that includes human skeletal material will be treated as a potential crime scene. If the remains are determined by Law Enforcement to be recent human remains and/or associated with a forensic crime, MTNF Law Enforcement/Rangers will assume complete control of the effort.
3. **No Photographs will be taken of human remains**. If necessary, only hand-drawn illustrations or plan notes may be used in documentation and other communication. Should unforeseen, unusual circumstances arise, law enforcement may request that photographs be taken in the case of a crime scene. These photographs will, however, be taken only after consultation and with the Tribes. After conclusion of the criminal case, all photographs of human remains will be destroyed.
4. When the archaeologist/project lead/contractor determines that the inadvertent discovery of human remains or funerary objects has occurred, immediate telephone notification must be provided to the Tribes within twenty-four (24) hours. This telephone notification will be followed immediately by written notification that contains all information regarding the current status of the discovery.

5. The Tribes shall be given the opportunity to visit the location and be provided an on-site orientation of the location where the human remains were discovered prior to any further disturbance or excavation in the location
6. It is the preference of the Tribes that, wherever possible, burials are left in place (*in situ)* and any further project activities avoid the burial with an appropriate buffer area, to be determined with the Tribal THPOs on a case-by-case basis.
7. The Tribes and the MTNF will consult to develop a NAGPRA Plan of Action should excavation be deemed necessary by both parties. Under the NAGPRA regulations (43 CFR 10.3-10.5), MTNF must prepare, approve, and sign a Plan of Action if the MTNF intends to excavate or remove, or leave in place NAGPRA cultural items.
8. At minimum, this Plan of Action will address the requirements of 43 CFR 10.5(e):
    a) The kinds of objects to be considered as cultural items;
    b) The specific information used to determine custody;
    c) The planned treatment, care, and handling of human remains, funerary objects, sacred objects, or objects of cultural patrimony recovered;
    d) The planned archeological recording of the human remains, funerary objects, sacred objects, or objects of cultural patrimony recovered;
    e) The kinds of analysis planned for each kind of object;
    f) Any steps to be followed to contact Indian tribe officials at the time of intentional excavation or inadvertent discovery of specific human remains, funerary objects, sacred objects, or objects of cultural patrimony;
    g) The kind of traditional treatment, if any, to be afforded the human remains, funerary objects, sacred objects, or objects of cultural patrimony by members of the Indian tribe or Native Hawaiian organization;
    h) The nature of reports to be prepared; and
    i) The planned disposition of human remains, funerary objects, sacred objects, or objects of cultural patrimony.
9. Neither the MTNF staff nor any of its contracted employees will conduct excavation, handling, or removal of any human remains without the affiliated Tribe's consent, per the guidelines established in the NAGPRA Plan of Action.
10. Any construction contractor may resume construction activities in the area of the discovery upon receipt of written authorization from the MTNF.

(B) *Inadvertent Discoveries on State or Private Lands*

In the event of an unanticipated discovery of human remains or burials on non-Federal lands during MTNF archaeological survey or construction activities, MTNF will comply with the Missouri Unmarked Human Burial Law (RSMO §194.400-410) and the Missouri Cemetery Law (RSMO §214.010-550), and follow these procedures:

1. Upon encountering human remains or an unmarked human burial during ground disturbing activities, MTNF will ensure that the archaeological crew supervisor or construction contractor immediately stops work within a one hundred (100) meter radius from the point of discovery.

   MTNF will ensure that the archaeological crew supervisor or construction contractor implements interim measures to protect the discovery from vandalism and looting, but must not remove or otherwise disturb any human remains or other items in the immediate vicinity of the discovery.

2. Only natural materials will be used in the process of implementing protection measures for any uncovered human remains.

3. MTNF will notify the county coroner, SHPO and the Tribes no later than forty-eight (48) hours of the discovery of unmarked human remains as defined by RSMO §194.400-407. MTNF will contact by phone the points of contact for the Tribes of the discovery.

4. Within seventy-two (72) hours after notification the county coroner will determine jurisdiction.

5. Other than for crime scene investigation, no excavation, examination, photographs, or analysis of human remains will be conducted by the MTNF or any contracted professional without first consulting with the SHPO and, in the instance of human remains suspected of being Native American, securing permission from the Tribes. Unless the remains were inadvertently removed, the evaluation will be conducted at the site of discovery. If necessary, burial drawings and other records will ultimately be curated at Missouri's Rock Bridge curation facility. Drawings cannot be published in any form or shown as part of scholarly presentations without the written permission of the Tribes or nearest living descendants.

6. The SHPO is responsible for notifying MTNF and the Tribes within twenty-four (24) hours of the county coroner's findings regarding the Native American determination.

7. If it is determined that intact or fragmented human remains are present and not considered modern or criminal evidence SHPO will consult with the MTNF and Tribes regarding additional measures to avoid and protect or mitigate the adverse effect of the project on the human remains and burial site. These measures may include:

   a. exploration of potential alternatives to avoid the human remains or burial;

   b. formal archaeological evaluation of the site;

c. if the remains are determined to be Native American, consultation with the Tribes will be required;

d. visits to the site by the SHPO, the Tribes, and other interested parties;

e. for Native American remains, implementation of a mitigation plan by MTNF in consultation with the Tribes, including procedures for disinterment and re-interment; and

f. implementation of the mitigation plan.

8. Should removal of burials be approved by SHPO through consultation and consensus with Tribes, all objects associated with the human remains will be collected, transported, and stored with the human remains with which they are associated and will remain so throughout.
9. SHPO approval will be required to resume construction following completion of any fieldwork component of the mitigation plan.
10. MTNF is responsible for transferring control and possession of any collected human remains and/or funerary objects to the SHPO with all accompanying documentation.
11. MTNF staff will notify the Tribes within twenty-four (24) hours of physical transfer that either SHPO has accepted control and possession in the case of finding on non-federal land. MTNF will provide the Tribes with copies of all future documentation concerning human remains including documentation concerning the transfer of control of the human remains and the associated objects from MTNF to the SHPO.
12. The SHPO will, upon receipt, proceed according to RSMO §194 and NAGPRA, respectively, to continue consultation regarding repatriation independently.

(C) *Reburial Consultation*

Through consultation among the MTNF and the Tribes, a determination of cultural affiliation of the human remains shall be made as part of the above Plan of Action development. After NAGPRA disposition is determined should a burial need to be removed, the MTNF will continue consultation to determine a reburial site both available and appropriate with the affiliated Tribe(s). The affiliated Tribe(s) shall be able to visit any proposed reburial sites with MTNF staff as part of this consultation.

1. The MTNF will host consultations regarding determining a reburial site location and shall be prepared to consult on for following elements of stewardship:
    a. Providing access to the reburial area by affected Tribes and other procedures specific to the locality;
    b. Restrictions, if any, relating to the reburial area, including but not limited to restrictions relating to proposed changes from current land use in the

reburial area, maintenance restrictions, and restrictions regarding the marking of grave sites;

c. Security of the reburial area;

d. Supporting long-term coordination with the affected Tribes, including affording the opportunity to conduct religious ceremonies with regard to Native American human remains and funerary objects on the site itself; and

e. Development of a confidentiality agreement that shall stipulate the location of the reburial not be disclosed to the public, and shall only be disclosed to those MTNF employees who have a need to know.

2. When determining specific reburial locations to present as options to the affiliated Tribe(s), the following Reburial Area Criteria shall be considered:

   a. Proximity to original burial/disinterment area

   b. Flood susceptibility and location above the 100 year flood plain

   c. Ease of digging for reburial

   d. Restrictions on public access

   e. Current land use and no anticipated change in current use

   f. Access potential

   g. Adequate land area to accommodate anticipated burials

   h. View shed

   i. Proximity to areas with a history of looting

3. The MTNF shall provide the consulting Tribe(s) with written documentation of the potential reburial sites in the above reburial consultations. The documentation is to include:

   a. Map of the area

   b. Size of the area

   c. Normal flood plain elevation and flood risk

   d. Description: topography soil type, flora, fauna, distance to roads and public areas

   e. Present land classification

   f. Advantages and disadvantages of the particular site

   g. Known historic properties; need for field investigations

   h. Photographs and/or videotapes

(D) The MTNF will maintain copies of the NAGPRA Plan of Action and any relevant draft or final Notice of Inventory Completion and/or Notice of Intent to Repatriate, or any

other NAGPRA documentation needed. The MTNF shall maintain a current list of any reburial areas designated and date of the reburial completed. This information will be housed with the MTNF HPM in a secure location protected from public access. The list and its contents shall only be disclosed to authorized tribal representatives and, upon prior notification to the affected Tribes, to MTNF personnel who have a need to know the information.
