Acceptance of ROW conveyances

Todd Wiesehan

These are areas of deficient ROW routinely collected when landowners subdivide property to created new tracts along roadways which currently have ROW widths which are narrower than our current minimum requirements. These simply require acceptance by the County Commission which may be done as part of the consent agenda.

Requested by: toddw@christiancountymo.gov 2026-09-28 10:35

**Areas of deficient Right-of-Way which are being conveyed to Christian County
Presented to the County Commission for acceptance on 10-1-2026**

The grantors listed below have executed right-of-way deeds to the County for areas along public roadways where the ROW width is less than standard requirement. These areas are legally described within the individual ROW deeds presented and are associated with new tracts which have been created via administrative minor subdivision. The action being taken by the County Commission is to formally accept these conveyances.

The acquisition of deficient ROW is required under Article 5, Section 2 of the Christian County Subdivision Regulations and Section 3 of the Christian County Road and Access Standards.

Surveyor's Declaration

I, W. Andrew Daniel, Registration No. LS 2007017957 in the State of Missouri, on behalf of Stephen L. & Rebecca S. Ketchum, have surveyed in accordance with Missouri Standards for Property Boundary Surveys of the Missouri Department of Agriculture, and the standards adopted by the Missouri Board of Architects, Professional Engineers and Land Surveyors for rural property, the parcel described in book 2010, page 139.3 in Christian County, Missouri. I hereby declare that this plat, prepared by me shall serve as witness to my findings. All adjoining tracts were identified by property boundary descriptions obtained from the office of the Recorder of Deeds of Christian County, Missouri. While deed records may not completely identify all current owners, the information ascertained from these documents was necessary to determine property boundaries. Utilities, if shown, were identified by visual inspection only. All utilities must be marked on the ground prior to any excavation. (RSMo Chapter 319 and OSHA Rules 1926.651)

Proposal for the partial vacating of Canyon Road

Currently a large portion of Canyon Road is maintained by CCRD and would be beneficial to the county as a whole if vacated. The portion of the road in question is what has been referred to as the “new gate” to the “old gate”. This section of the roadway is unimproved (not paved) has no commerce for the county. It is not a route of travel for the motoring, and is currently made up of gravel and bedrock. The distance of the section in question is approximately 2275 feet.

Financially:

Every year the CCRD has to expend manpower, equipment usage and sometime purchase of material to repair/ maintain the roadway after moderate to heavy flooding. This consists of bring employees and equipment to the road to replace, plow, or grade the road back into being somewhat useable after being washed out by the flooding. They have also had to respond to remove/cut trees or brush that has fallen or otherwise blocked portions of the road. Vacating this part of the roadway eliminates this need.

Liability:

“Citizens” have taken it upon themselves to “fix” the roadway by cutting trees, (some on private property), grading the roadway with personnel equipment, etc. This brings a liability to the county if these individuals are injured or cause injuries.

Potential added costs:

During some recent repairs the CCRD has used existing materials on site to repair the roadway. Unfortunately, due to Judge Johnson ambiguous ruling that this area is in fact a county road, it's unclear if the material was taken from private property or not. Do the land owners need to be finically compensated for this material? The "roadway" is somewhat hard to define due to the ever-changing landscape because of the flooding.

In compliance with Missouri RSMo 228.110 we the undersigned property owners request the Christian County Commission to VACATE the undeveloped/unpaved portion of Canyon Road located in Christian County, Missouri.

The section being requested to be vacated is described as beginning at the end of the paved portion "new gate" of Canyon Road to the "old gate" as described in Christian County court case 20CT-CC00186. This is further described as the gravel/bed rock section running parallel to the Finley Creek to the dead end. The purpose of this request will be to facilitate control of vehicular traffic which currently limits the landowners from accessing their property when necessary.

The area in question does not include any portion of the Missouri Department of Transportation easements.

We the undersigned landowners and voters of Linden Township Christian County ask the Christian County Commission(ers) to vacate the portion of Canyon Road described as the gravel/bedrock running parallel from Finley Creek to the dead end.

This section is also described as the "new gate" to the "old gate" in Christian County Court case 20CT-CC00186.
