RE: PLANNING & ZONING COMMISSION REAPPOINTMENTS

Commissioners,

As you are aware, the six citizen members of our Planning and Zoning Commission are appointed to alternating four-year terms with three of the six seats being open to reappointment every two years.

In January of last year, I submitted a recommendation for reappointment for the three seats with expiring terms. At that time, the Commission chose not to take action, and the matter has remained unresolved.

The members currently eligible for reappointment are:

Vance Jenkins PO Box 1263 Nixa

Mr. Jenkins has dutifully served on the P&Z Commission since 2015 and has been elected by fellow Commissioners to officer roles on multiple occasions.

Brenda Hobbs 511 Penner Ln., Ozark

Ms. Hobbs has also been a member of the P&Z Commission since 2015, and currently serves as Secretary for the board.

Danny Matthews 1488 W. Cedar Ridge Ln. Nixa

Mr. Matthews has served on the P&Z Commission since 2022 and was elected by his fellow Commissioners as Vice Chair for the group.

All three of these members have expressed a desire to continue serving on the Planning and Zoning Commission.

Each of these appointees has demonstrated a commitment to applying the County's adopted development regulations in a reasonable, consistent and impartial manner. Additionally, each individual contributes valued perspectives and expertise which, I believe, leads to quality decisions and recommendations by the board as a whole. As such I would recommend and encourage the County Commission to reappoint each of these valued citizens to another term.

These new appointments would cover the period from January 2024 through December 2027.

Respectfully submitted,

Todd M. Wiesehan
Director
