15. Holder Road Maintenance Records
16. Letter from Joe Nelson

REMONSTRANCE AGAINST
VACATION OF A PORTION OF HOLDER ROAD

STATE OF MISSOURI)
) ss
COUNTY OF CHRISTIAN)

COME NOW the undersigned Remonstrants, by counsel, and, pursuant to § 228.110 of the Revised Missouri Statutes, respectfully submit this Remonstrance against the proposed vacation of a portion of Holder Road. The undersigned assert that the proposed vacation is not in the public interest and would result in significant detriment to the community and state the following in support of their position:

1. Pursuant to § 228.110 of the Revised Missouri Statutes, a county road may be vacated only if it is determined that doing so is in the public interest and does not adversely affect the convenience of the public or the property rights of individuals.

Public Interest

2. The proposed vacation of a portion of Holder Road is not in the public interest. The road serves as a vital thoroughfare for residents, providing essential access to schools, businesses, and emergency services. Its closure would significantly inconvenience the community and disrupt daily activities.

3. On information and belief, Holder Road, including the portion at issue, was established in 1870, was recognized as a county road in 1875, and has been in continuous use as a county road since that time.

4. On information and belief, an average of 1,500 to 1,600 vehicles travel Holder Road each day, including the portion at issue.

5. On information and belief, closing the portion of Holder Road at issue would severely impact the ability of emergency vehicles to access residences and businesses on either side of the portion proposed to be vacated; and emergency services have expressed their opposition to vacating any portion of Holder Road.

6. On information and belief, school buses serving the Clever R-V School District use Holder Road, including the portion at issue, every day during the school year; and closing that portion would not only be an inconvenience but would likely add to School District costs and present challenges for ensuring student arrival and return times.

7. On information and belief, in 2023, the petitioners were presented with a proposal to widen Holder Road and install a walkway, and they rejected that proposal.

Adverse Impact on Property Rights

8. The vacation of the road at issue would adversely affect the property rights of the undersigned and other residents in the area. The road provides the most efficient access to certain properties, and its closure would diminish property values and limit future development opportunities.

Lack of Alternative Routes

9. There are no viable alternative routes that can accommodate the traffic currently using Holder Road. The proposed vacation would lead to increased congestion on surrounding roads, posing safety risks and increasing travel times.

10. Closing the portion of Holder Road at issue would severely impact the ease and timeliness of travel in general but, in particular, it would markedly increase the travel time between Nixa and Republic.

Community Opposition

11. There is substantial opposition from the community regarding the proposed vacation. Numerous residents have expressed concerns about the negative impact on their quality of life and the potential economic consequences.

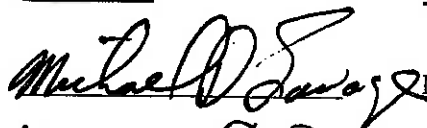

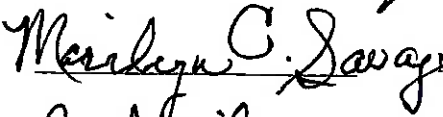

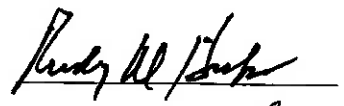

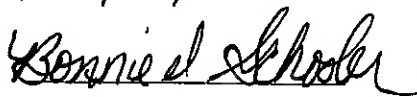

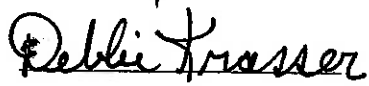

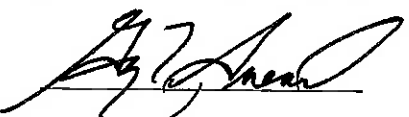

12. As just one example, after some of the undersigned created a private Facebook page called Say NO to Holder Road Closure on March 20, 2025, more than 1,400 Facebook users have joined the group/

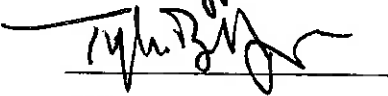

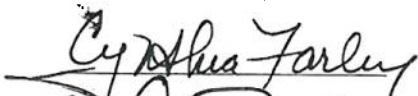

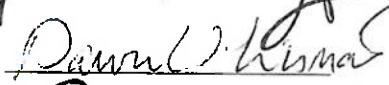

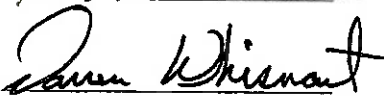

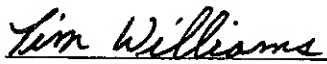

13. For the reasons stated above, the undersigned respectfully request that the Commission deny the proposed vacation of a portion of Holder Road and, on their own behalf and on behalf of others who oppose this proposal, they request the opportunity to testify before the Commission to express the reasons for their opposition.

WHEREFORE, the undersigned pray that this Honorable County Commission:

- A. Deny the proposed vacation of a portion of Holder Road;
- B. Provide an opportunity for the undersigned and others who oppose this proposal to testify before the Commission on the matter; and
- C. Grant such other and further relief as the Commission deems just and proper.

We, the undersigned residents of Christian County, being duly qualified and competent residents of Lincoln Township, respectfully represent and aver that the portion of Holder Road at issue in the Petition to Vacate a Portion of Holder Road is a vital and useful public roadway and that vacating the same would not be in the public interest and would result in significant detriment to the community.

Re: Remonstrance Against Vacation of a Portion of Holder Road
Our File No. 577711-1

Dear Commissioners:

Enclosed for your consideration are copies¹ of the following documents in further support of the recently filed Remonstrance Against Vacation of a Portion of Holder Road:

- Affidavit of Ronnie Keithley Jr. I understand that Mr. Keithley will be at the July 10th hearing on the Petition, but I wanted to provide this beforehand.
- A document titled Petition in Support of Remonstrance Against Vacation of a Portion of Holder Road. Many of these individuals wanted to sign the Remonstrance so we prepared this separate document for them to sign.
- Names and addresses of individuals who have stated their support for the Remonstrance via an online petition.

Best regards,

J. Michael Bridges

JMB/pc
Enclosure

¹ I will bring originals of these documents to the July 10th hearing.

AFFIDAVIT OF RONNIE KEITHLEY JR.

State of Missouri)
) ss.
County of Christian)

COMES NOW, Ronnie Keithley Jr., being duly sworn, and states:

1. I have personal and direct knowledge of the facts set forth herein.
2. I am the Fire Chief of the Clever Fire Protection District ("District").
3. I have read the recently filed Petition to Vacate a Portion of Holder Road ("Petition") and the Remonstrance Against Vacation of a Portion of Holder Road ("Remonstrance"), and I am providing this Affidavit in opposition to the Petition and in support of the Remonstrance.
4. As stated in the separate letter I sent to the Christian County Commissioners, the Clever Fire Protection District is opposed to the proposed vacation or closure of part of Holder Road.
5. I understand that Holder Road is narrow and has a low water crossing that closes the road at times. However, District personnel use this road as a cut through to ZZ Highway from our Boaz Station. This saves us several minutes on our response times.
6. In addition, when personnel from the Republic Fire Department and the Brookline Fire Protection District provide support and assistance, they use this road to get to the eastern side of our district. For example, on February 16, 2025, we had a structure fire out by Hidden Valley Golf Course, and both Brookline and Republic Fire used Holder Road to lend mutual aid. If they had been forced to drive an extra 5 to 10 minutes to respond (as would be required if Holder Road were closed), we likely would have run out of water to fight that fire.
7. I understand from the Petition that those proposing the closure of Holder Road want to block the road with a gate and install a so-called "Knox system." Clever Fire Protection District does not utilize the Knox system, which would make it impossible for us to use Holder Road.

8. Even with a gate code or other means of access, our response time would be significantly impaired. As I am sure you know, any kind of delay in response time can be deadly.

9. Rather than closing Holder Road, in my view it should be widened and the low water slab should be reworked to allow safer travel down this road.

10. As the Petition states, Holder Road is an extremely popular road which is traveled frequently. In my opinion, closing this road would cause more problems than it would be solve.

11. In conclusion, I am opposed to the proposed closure of part of Holder Road because it is a vital emergency response route. I have been in contact with all our neighboring fire departments and districts that we use for mutual aid, and they are also opposed. Therefore, I ask you to look at the good this roadway brings to the county and residents and, rather than closing a portion of it, move forward with plans for fixing the low-water slab to make this road safer.

FURTHER AFFIANT SAYETH NOT.

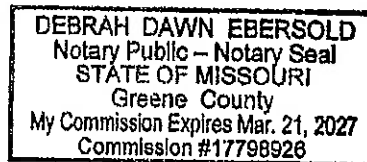

Ronnie Keithley Jr.

Ronnie Keithley Jr.

Subscribed and sworn to before me on 5-13-25, 2025.

Hello, my name is Duane Patterson. I am the owner of ABC Garage Door Service & Supplies. I am located on Eaglecrest Street in Nixa where I lease a warehouse and office space of almost 20 thousand square feet of building. I have a sales and service business that requires multiple vehicles.

I have several employees to perform our services. It requires traveling to most of the local areas including Republic and other homes in that area. Myself as well as all my trucks use Holder Road to save money and time. With all the hardships that today's unpredictable cost of operation brings, closing Holder Road would just add to the issues we are already challenged with. Increased cost of travel and wages. Most of my employees receive well above minimum wage so time is an issue and the journey around Holder to ZZ & 14 Hwy is out of the way to a known area for accidents.

Not only will my business be affected by the closing of Holder Road but the Medical and Fire Departments will be delayed getting to their emergency and possibly increase our cost of property insurance.

I also live in the area of Holder Road and use it with my personal vehicles. Allowing me to travel north from the Boaz area. I have traveled this road for over 40 yrs so you can see it is very essential in my daily life as for my business. SAY NO TO HOLDER ROAD CLOSING!

Signed Duane Patterson

Honorable Commissioners, Ladies and Gentlemen:

Good morning! My name Herb Lunday. My wife, Mary Beth, and I live in Nixa. Our son and his family reside on Holder Road. For close to ten years, I have traveled Holder Road almost daily, sometimes multiple times daily. The present condition of the road is not good.

I once went down to the low water bridge in my knee boots to remove a bunch of logs that had rafted up partially blocking the bridge. I got the job done, but I also fell into the creek. If Susan Spence is smiling over there it's because she knows the story.

I once rounded the hairpin curve past the bridge, before daylight as I routinely do, and there it was... a big ol' black car wrecked off the road, down in the trees. I called 911. There was no one in the car, but I helped a state trooper clear automobile parts off the road.

My points... If the County is permitted to remove those big trees beside the road that are already marked for removal, widen that curve and others, and pave the road instead of patching patches, all of which they propose to do, the road will be safer for everyone.

Some good people (the Hobbs, the Markleys, Susan Spence and others) are proposing to vacate a section of Holder Road. If approved, the entire road would be unusable by the great majority of people who use it now. On the other hand, more than 1500 other good people have placed their names, their voices, their time, effort, and money on the line to object to the petition. Holder Road is not a private lane. It is an important, publicly funded and maintained route that is used by hundreds of travelers for their legitimate purposes.

I've read that speed is a central issue in this matter. I'm not denying that people sometimes speed, but I haven't noticed any recently. BUT, if we are going to close public roads because of speed, we need to close every county road in Christian County. In fact, if we're going to close roads because of speed, we need to close every highway and byway in the state of Missouri.

I believe the Christian County Highway Department has impressive, comprehensive plans ready to go, and funding to execute those plans, that will make Holder Road better and safer for everyone... everyone in the petitioning group, everyone in the Say No group, and anybody else in between. I think someone in authority should simply go to the Christian County Highway Department... AND TURN 'EM LOOSE!

To Whom It May Concern,

My name is Gary Thater, and I am a long time resident and the one of the owners/operators of Thater Farms, which sits between Highway ZZ and Holder Road. I am writing today to respectfully express my strong opposition to the proposed closure of Holder Road to public access.

Our family farm spans several hundred acres and supports a significant hay and beef cattle operation. We grow premium alfalfa and orchard grass, which we bale and sell locally, and we raise and market several hundred head of cattle each year. As part of our daily and seasonal operations, we rely on both Highway ZZ and Holder Road for safe and efficient movement of large farm equipment, hay, livestock, trailers, and deliveries.

If Holder Road is closed and gated, the result would significantly impact our ability to operate smoothly. All farm traffic would be forced onto Highway ZZ, creating a greater safety risk and causing unnecessary congestion, especially during planting, haying, and cattle moving seasons. Our equipment is large, slow moving, and often requires wide turning radiuses. Maneuvering this safely on a single, busier road would be extremely challenging and dangerous, not only for us, but for other drivers in the area.

Holder Road provides essential access to both sides of our property. It is not just a convenience - it is a critical infrastructure component that supports our operation's efficiency and safety. Closing it would force us to drive equipment longer distances on busier roads and limit emergency access should there ever be an issue on the property.

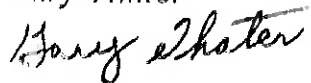

We understand and respect that neighbors may have concerns, but closing a public road that serves multiple landowners and farm operations should not be taken lightly. This decision affects more than just a few - it impacts the broader agricultural community and the daily function of our local food supply.

I respectfully ask that you consider the impact this will have on our farm, our family, and our ability to operate safely and efficiently. We are asking that Holder Road remain open to the public and accessible to those of us who depend on it.

Thank you for your time and consideration.

Sincerely,

Gary Thater

Thater Farms

417-299-5738

thaterfarm@gmail.com

These are some of the Bullet points I'm going to hit while speaking to the Commissioners.

Family:

Harry & Bertha Holder had a working farm where the Hobbs live when the road was made.

Billie Jane Holder Jones & Darrell Jones along with Great Grandparents Roy & Gertie Jones owned the Clever Supermarket for 2 generations.

Both sets of my Grandparents along with my parents, my husband myself & my Son graduated from Clever.

My In-Laws and all of their Littles currently live in the Clever area and use Holder Road.

Real Estate:

Closing Holder Road will negatively impact the selling and value of anything south of Hwy 14, especially off N Hwy.

By adding a longer commute it will also affect Medical personnel working in Republic or Springfield who need to be able to live 20-30 minutes from their work.

All Parties should have signed off on the Easement of the County Road when purchasing their Property through the Title Company.

Chamber/Economic Development: (Started Clever Chamber in 2020/Been working with Show Me Christian County for 6yrs)

Clever and Nixa will continue growing together in the years to come. We want Businesses to come to Christian County along Hwy 14. Cutting off this thoroughfare will only discourage this.

It will also push the flow of Traffic towards Republic and Christian County will miss out on more tax numbers.

I'm sure I might have a few more things I come up to fill in some gaps, but this is what I have for now. I will also mention that government is "supposed" to be there to support the Greater Good of the people it is to represent. It's a very sad society where the few can have so much selfish power over the majority.

Thank You,

Amanda Satterlee

Clever Fire Protection District

Ronnie Keithley JR, Fire Chief

County Commissioners,

My name is Ronnie Keithley, and I am the Clever Fire Chief. This letter is to inform you that we are not in favor of the Holder Road closure. I have read the petition filed with your office and there are issues that have not been considered and misinformation given.

I understand that this road is narrow and has a low water crossing that closes the road at times. The Fire Department uses this roadway as a cut through to ZZ Hwy from our Boaz Station. This saves us several minutes on our response time. We also utilize Republic Fire and Brookline Fire that use this road to get to the Eastern Side of our district. Just for one example on February 16th, 2025, we had a structure fire out by Hidden Valley golf course that we utilized this road for both Brookline and Republic Fire to lend mutual aid. Their extra 5-10-minute response time could have caused us to run out of water to fight fire.

I understand from the petition that they are wanting to block this roadway with a gate and Knox box system. Clever fire does not utilize the Knox box system so that would be no help to us. Even with gate code or whatever access they would utilize it would cause a delay in response time. As you know any kind of delay in response time could be deadly.

I would rather see this roadway widened and the low water slab reworked to allow safer travel down this road. As the petition states, this roadway is an extremely popular road and that is traveled frequently. I feel closing this road would cause more issues and concerns than it would be solving.

In conclusion, I am opposed to this road being closed due to the importance of emergency response. I have also been in contact with all our neighboring departments that we use for mutual aid, and they are also opposed. So, I ask you to look at the good this roadway brings to the county and residents. I would also ask you to move forward with previous plans for fixing the low-water slab to make this road safer. Thank you for the job that you, as the Commissioners do, thank you for your time in reading this letter. If you have any questions or if I can be of assistance, please feel free to contact me.

Thank you,

Ronnie Keithley

Fire Chief

Clever Fire Protection District.

Speech to Christian County Commission: Keep Holder Road Open -- Jared King

Chairman and Commissioners,

I stand before you today as a concerned citizen to advocate for keeping Holder Road open to serve our community as it has faithfully done for several years. This is not merely about maintaining a stretch of pavement—this is about preserving a vital lifeline that connects our community and ensures the safety and well-being of Christian County residents.

Public Safety Cannot Be Compromised

Holder Road serves as a critical artery for our first responders, and I cannot overstate the importance of this access. Our police officers rely on this route daily for patrol coverage and emergency response throughout this area. When officers receive a call about a domestic disturbance, a break-in, or any emergency requiring immediate law enforcement presence, every minute saved in response time can mean the difference between preventing a crime and arriving too late.

Our ambulance district equally depends on Holder Road for timely access to residents who may need life-saving medical care. Consider the elderly resident having a heart attack, or the child experiencing a severe allergic reaction. Paramedics know these roads, they've planned their routes, and they depend on reliable access to reach these families quickly. Closing this road would force detours that could add precious minutes to response times—minutes that could mean the difference between life and death.

Essential Services Our Community Depends On

Beyond emergency services, Holder Road enables essential daily services that our residents have come to rely upon. Our mail carriers traverse this route daily, serving families and businesses along this corridor. This isn't just about convenience—postal service delivers prescription medications to seniors, disability checks to those who need them most, and important government communications to all residents. Many of our neighbors, particularly elderly residents, depend on mail delivery for their connection to family, healthcare providers, and essential services.

Utility workers also use this road regularly for maintenance and emergency repairs. When power lines go down during storms or water mains need repair, these crews need reliable access to serve our residents quickly and efficiently.

Protecting Our Taxpayer Investment

For years, Christian County taxpayers have funded the construction, maintenance, and upkeep of Holder Road through their hard-earned tax dollars. This represents a substantial public investment in infrastructure that has served our community well. Road maintenance, snow removal, pothole repairs, and general upkeep—all funded by the very people who depend on this road remaining open.

Abandoning Holder Road now would essentially throw away this taxpayer investment. Moreover, closing the road would create additional costs as emergency services, postal delivery, and utility workers would be forced to take longer, less efficient routes. These increased operational costs ultimately get passed back to taxpayers through higher service fees and taxes.

Community Access and Property Rights

The residents and businesses who depend on Holder Road have built their lives around this access. Families purchased homes here, businesses established operations, and property owners made significant investments based on the reasonable expectation that established public roads would remain available for public use. These property owners pay taxes based partly on their road access, and removing that access without compensation undermines both property values and basic fairness.

These are your constituents—people who vote, pay taxes, work hard, and contribute daily to our community's economic vitality and social fabric. They deserve to have their reasonable expectations of continued public road access honored by their elected representatives.

The Economic Impact

Closing Holder Road would also create broader economic consequences. Businesses that rely on this route for deliveries, customers, and employee access would face increased costs and potential loss of business. Emergency service delays could impact insurance rates for the entire area. Property values along the affected corridor would likely decline, reducing the county's tax base.

The Path Forward

I urge you to maintain Holder Road as the public thoroughfare it has always been. Continue the responsible stewardship of taxpayer resources by keeping this vital connection open and properly maintained. Consider the voices of the families who depend on this road, the first responders who need efficient access routes, and the postal workers and utility crews who serve our community daily.

This commission has a responsibility to preserve essential infrastructure that serves the public good. Holder Road is exactly that—essential infrastructure that connects our community, enables vital services, and represents years of taxpayer investment.

Our police officers, paramedics, postal workers, utility crews, and neighbors are counting on your leadership to preserve this essential piece of our county's infrastructure. I ask that you vote to keep Holder Road open and continue serving the people of Christian County as it has done reliably for years.

Thank you for your time, your service to our community, and your careful consideration of this important matter.

Amanda Ginter <notoholderroadclosure@gmail.com>

Statement to Read at Open Hearing 6/10/2025

To: notoholderroadclosure <notoholderroadclosure@gmail.com>

Cc: Wrethman42 <Wrethman42@gmail.com>

Commissioners,

My name is William Rethman. Our family moved to our home on Mt. Carmel Rd. in Clever in 1980. Since then, I've used Holder road 1-2 times per week. If this road were closed to me, it would require me to use one of two alternate routes to go to my doctor's offices and appointments (Cox clinic in Republic).

- Route #1 is across highway 14 at ZZ. Due to the high accident count, I am very reluctant to cross.
- Route #2 would require me to go through Clever, Republic, and then East to the clinic.

In addition to my doctor, I have family members and several other friends I visit in West Springfield. There are also several shopping centers I visit in West Springfield regularly (Menards).

In conclusion, closing Holder Road would be a major inconvenience to my travels and safety. Thank you for your consideration.

Sincerely,
William (Bill) Rethman

THE RESIDENTS OF HOLDER ROAD AND HONEYSUCKLE ROAD HAVE A LOT IN COMMON, SPEEDING VEHICLES, LOW WATER CROSSING, AND THE DUMPING OF TRASH, DOGS, CATS AND EVEN ONE TIME AN EMU. I HAVE BEEN RUN OFF THE ROAD ON SEVERAL OCCASIONS WHICH HAS MADE ME A BETTER DEFENSIVE DRIVER. WE HAVE EXPERIENCED VANDALISM BY OUR MAILBOX DESTROYED TWICE. DUE TO THE INCREASED TRAFFIC MY WIFE DISCONTINUED WALKING ON THE ROAD AND INSTEAD WALKS UP AND DOWN OUR DRIVEWAY OR IN BAD WEATHER WALKS AT A HEALTH CLUB IN REPUBLIC WHERE SHE HAS A FREE MEMBERSHIP THROUGH THE MEDICARE SILVER SNEAKERS PROGRAM. THERE IS ALSO A WALKING TRAIL WHERE YOU CAN WALK YOUR DOG AT THE PARK.

CERTAINLY THE GOOD OUTWEIGHS THE BAD AND FORTUNATELY WE HAVE FOUND ALTERNATIVES TO OUR PROBLEMS AND HAVE ACCEPTED WHAT WE CANNOT CHANGE AND HAVE MOVED FORWARD.

I SPOKE OF ALTERNATIVES TO OUR PROBLEMS AND I BELIEVE THAT THE ROAD CLOSURE IS THE WRONG ALTERNATIVE.

ANDY R. ARNDT

Commissioners and county officials,

My name is Sara Hough I am here today to express my concern regarding the petition to close a portion of Holder Road. As a resident and community member of Lincoln Township, I respectfully request a denial of the petition to close the portion of Holder Road in question and keep the entirety of the road open for public use.

Holder Road serves as an important connector for residents, emergency services, and daily travel. All three of these reasons are why I am here today, speaking on behalf of opponents to the closure petition. I travel this road daily to and from work in Springfield. This path is the most direct and efficient way for me to travel by cutting off several minutes, miles, fuel, and wear and tear from my commute each day.

In my professional life, I am a respiratory therapist and an instructor of respiratory therapy. As an RT, my main role within a hospital is to provide life support during emergencies and throughout some of the most critical times in a person's life. I help provide life saving measures to those who need it when they need it the most.

In emergency scenarios, time is of the essence. It's not just minutes that matter, but sometimes seconds. According to the National Institute of Health, The World Health Organization, The American Red Cross, and any other reputable healthcare group, a person in a life-threatening emergency can experience brain death within the first 4 minutes without oxygen to the brain. Here is a description of what happens within a person's body in this type of emergency. At **1 minute**: Brain cells start to lose efficiency, and cognitive function can be impaired. At **3 minutes**: Neurons begin to die, and mild brain damage becomes a possibility. At **4-5 minutes**: The risk of severe, long-term brain damage significantly increases. At **10 minutes**: Most brain activity ceases, and severe brain damage is likely. At **15 minutes or more**: Without intervention, survival is unlikely, and permanent brain death is a strong possibility.

These precious seconds matter in an outside of the hospital emergency even more. The closure of this portion of Holder Road could increase emergency response times and potentially cost lives in the big picture. It is vital that access remains open and unencumbered through Holder Road for efficiency and response. Closing a portion of the road sets a dangerous precedent in the community as the reasons for wanting closure of a county road are far outweighed by the needs for them to stay open.

Earlier this year, The Kansas City Star reported that outside of the St. Louis area, Christian County has experienced the most growth at 8.1% from 2020-2024 of any other county in the state of Missouri. With growth comes progress and expansion. With progress and expansion comes an increase in traffic. The progress of our beautiful county is important,

and traffic is an unfortunate side effect of growth. However, traffic on Holder Road is no different than any other county connector road.

Unfortunately, the few individuals seeking the closure of a portion of Holder Road do not represent the broader interests and needs of the community. Keeping Holder Road open ensures continued accessibility and support, as well as maintaining the connectivity that benefits all of us who live and travel in and through Christian County.

I appreciate your thoughtful consideration of this matter and urge you to preserve public access to this vital roadway. I would be happy to answer any questions you may have regarding any of the topics I have discussed today.

Thank you for your time and consideration.

Sara Hough

Mr. Lynn Morris, Mr. Johnny Williams, Mr. Bradley Jackson, Ms. Miranda Beatles

Thank you for agreeing to and even requesting input from citizens on the Holder Road issue.

I have made several trips on Holder Road this month hauling cattle to the Springfield Livestock Auction. We live south of Boaz and Holder Road is the most direct route and allows me to avoid the busy traffic in Republic.

The direct route for me is not what was most on my mind while I was thinking of the possibility of this road being closed. I have over 30 years experience responding to various types of emergency incidents as part of Clever Fire Protection District. Approximately half of those years were as an officer (Captain, Assistant Chief, and Chief.) I mention this only to indicate to you that I took my service seriously. Some of those years I responded to more calls than anyone else.

Clever Fire is a volunteer fire district. We have no manned stations. Responders respond from work, home,...just where we happen to be at the time. Some of our most trained, experienced personnel carry extensive first aid/basic life support equipment in our personal vehicles because a lot of our calls occur at times it is faster for us to respond directly to the scene instead of to the Fire Station and then to the scene. I have responded to a lot of calls on Holder Road and other roads off Highway ZZ that Holder Road was the fastest route.

When driving through the district there are visual triggers that remind me of specific incidents. It is beneficial to me to run those remembrances through my brain to critique the incident so as to be mentally prepared for the next time. One of those past incidents I was thinking about while driving this week involved an infant that had stopped breathing and was turning blue. Most people are aware that in a situation like this every second counts. History seems to repeat itself. We can go a long time without a similar call and then suddenly it happens again. If Holder Road was to be closed and a similar call happens again the results could be heartbreaking. If it were to happen to a family that holds one of the keys or combination to the lock they would likely be able to have the gate open for emergency personnel before we arrive, but what if it happens at their neighbors home and the key holder doesn't know about it?

I had a discussion along these lines with Steve Hobbs. He told me that if we were going to something serious he would understand if we just crashed through the gate. If I knew that a baby wasn't breathing I probably would do that even though that is not a responsible way to

care for vehicles whether it is personally owned or district owned. There is also the fact that on many calls we don't know the extent of seriousness until we arrive. I have responded to traumatic injuries and found out someone fell on the kitchen floor and their bottom was hurting. I have responded to sick, not feeling good and found a patient in cardiac arrest. We have to treat every call as serious. It is frightening to think of the possibility of an important access route being closed off.

Thank you for your attention,

Kenny Lambeth, former Chief, Clever Fire Protection District.

From: Duane Compton

Sent: Monday, April 7, 2025 3:53 PM

To: jwilliams@christiancounty.gov

Subject: Clouser of Holder Road

Good afternoon, Commissioner Williams.

I am writing to formally express my opposition to the proposed closure of Holder Road.

In my 21 years as Fire Chief for the City of Republic, Holder Road has played a critical role in allowing our emergency crews to respond quickly to incidents in the Boaz area. Despite its narrowness and the need for improvements, using Holder Road regularly shaves several minutes off our response time when compared to the alternative route via ZZ Highway.

Over the past several years, we have responded to numerous emergencies in the area. On many occasions, our crews have needed to return to Republic to refill water from a hydrant. The closest hydrant is located at Republic High School along State Highway ZZ, making Holder Road a vital shortcut. Its availability during these operations has saved us valuable time that can make all the difference in an emergency.

I am also opposed to the proposed installation of a gate with a keyed vault or keypad. While I understand the intent behind such a measure, the added time required to exit the vehicle, unlock, and then relock the gate would further delay our response. Moreover, the long-term maintenance of such a gate—and the potential for vandalism or destruction by frustrated drivers poses a significant challenge for the County Road and Bridge Department.

If any changes are to be made to Holder Road, I strongly urge that it be widened and improved, not closed. In particular, addressing the low-water crossing with large culverts would significantly enhance the road's usability during flood conditions and ensure uninterrupted emergency access.

Please do not hesitate to contact me if you have questions or if I can be of further assistance regarding this matter.

Duane Compton

Fire Chief

Subject: Clouser of Holder Road

Good afternoon, Commissioner Williams.

I am writing to formally express my opposition to the proposed closure of Holder Road.

In my 21 years as Fire Chief for the City of Republic, Holder Road has played a critical role in allowing our emergency crews to respond quickly to incidents in the Boaz area. Despite its narrowness and the need for improvements, using Holder Road regularly shaves several minutes off our response time when compared to the alternative route via ZZ Highway.

Over the past several years, we have responded to numerous emergencies in the area. On many occasions, our crews have needed to return to Republic to refill water from a hydrant. The closest hydrant is located at Republic High School along State Highway ZZ, making Holder Road a vital shortcut. Its availability during these operations has saved us valuable time that can make all the difference in an emergency.

I am also opposed to the proposed installation of a gate with a keyed vault or keypad. While I understand the intent behind such a measure, the added time required to exit the vehicle, unlock, and then relock the gate would further delay our response. Moreover, the long-term maintenance of such a gate—and the potential for vandalism or destruction by frustrated drivers poses a significant challenge for the County Road and Bridge Department.

If any changes are to be made to Holder Road, I strongly urge that it be widened and improved, not closed. In particular, addressing the low-water crossing with large culverts would significantly enhance the road's usability during flood conditions and ensure uninterrupted emergency access.

Please do not hesitate to contact me if you have questions or if I can be of further assistance regarding this matter.

Clever R-V Schools

103 S. Public Avenue
Clever, MO 65631
417-743-4800

April 18, 2025

To Whom It May Concern:

The Clever School District relies on Holder Road every day to safely transport students to and from school. If Holder Road were closed, we would have to reroute buses onto Kerr Road, which is a much less safe option for our students.

Excellence In All We Do

1160 Honersuckle Road
Billings, MO 65610

June 15, 2025

Christian County Missouri Commission
100 W Church Street, Room 100
Ozark, MO 65721

Honorable Members of the Christian County Commission,

My name is Joe Nelson. At one time, I occupied the chair to the right of the presiding commissioner, and later, the center chair itself. I share this not out of nostalgia but to emphasize that I understand—perhaps better than most—that from time to time, this Commission must make decisions that are not universally popular. However, I believe the matter before you today is not one of those difficult decisions—it's actually quite clear.

Now to the issue at hand: Holder Road.

Does Holder Road have a legal deed? Perhaps not. But neither do many longstanding roads throughout Christian County. That fact alone cannot determine whether a public road should remain open. The real question is: **Has the County invested public tax dollars into the maintenance and improvement of this road over the years?** If the answer is yes—and I know it is—then Holder Road is a public asset that serves a broader population and deserves to remain open. Closing it would serve only a few, at the expense of many.

When I first took office as a commissioner in 1990, half of Holder Road was a dirt surface. Around 1992 or 1993, residents on the north end of Holder Road requested it be paved. The Commission at that time offered to split the cost—asking each household to contribute \$400, which they did. The road was paved, and since then, countless taxpayer dollars have been spent maintaining it.

Today, Holder Road is not a forgotten country lane. It connects Highway ZZ to Highway 14 and serves as a vital link for local residents and through traffic alike. According to the county's recent traffic study, approximately **1,600 vehicles travel this road daily**. That level of use underscores its public value.

To close Holder Road now would be to erase decades of public investment and inconvenience hundreds—if not thousands—for the benefit of a few. That simply doesn't add up.

As I said at the beginning, I understand hard decisions. But this isn't one of them. **Keep Holder Road open.**

Sincerely,

Joe Nelson
Former Commissioner, 1990 – 2000
Lifetime Resident of Clever

Holder Road Hearing Speech – July 10

Good morning, Commissioners.

My name is Amanda Ginter, and I want to thank you for allowing me to speak today. I am here on behalf of myself and the thousands who have voiced their strong support to keep Holder Road open as a public through road.

We are here not just with opinions, but with facts, history, and overwhelming community support. The requested petition to close the section of Holder Road is not about safety, infrastructure, or necessity; it is about their personal preference.

What we have is:

Community Support, a pending FEMA Grant for the Low Water Crossing Improvements, and pending improvements from the road study.

Road Classification

If classified, Holder Road would fall under a 'collector road', a road designed to connect local streets to arterial routes and typically handles between 1,500 and 8,000 vehicles per day. This is Holder Road. By law, classification cannot be used to restrict traffic. All decisions about road status must be based on actual usage and safety data. Which brings us to the Holder Road Safety Audit.

Holder Road Safety Audit Summary

In October of 2023, Olsson, under commission by MoDOT, conducted a full safety audit of Holder Road. At the time of the study, the road had no posted speed limit or signage. Despite this, the average speed was 38.4 mph northbound and 38.0 mph southbound. Clearly, speed is not an issue.

Traffic counts showed daily usage of over 1,600 vehicles at multiple points on the road. Heavy vehicle traffic, which includes trash trucks, propane trucks, school buses, or semis, was within normal, safe ranges, between 5% and 11.5% depending on the location.

Three-Year Accident Review

Olsson also performed a three-year crash analysis. Of the 16 incidents reviewed, 6 did not even occur on Holder Road, they were included only due to their proximity. That means only 10 actual incidents occurred on Holder Road over three years.

Of those: 2 were ice-related, 6 were failure to negotiate the curves, 1 involved alcohol, and 1 was a distracted driver. There was no indication of a pattern of danger, no pattern of excessive speeding, and no major safety threats.

Safety Recommendations

Olsson did make some recommendations to improve safety, including adding guardrails on curves, placing proper signage such as curve warnings, and marking center lines on the road. These are reasonable upgrades already in progress, thanks to Miranda's dedication to securing funds, and also the FEMA grant for the low water crossing. These are not reasons to close a public road.

If a section of Holder Road were vacated, traffic would be forced to reroute primarily onto Highway 14 and ZZ. That intersection is already known to be dangerous. In just the past three months, there have been three accidents at that location. Now, imagine what happens if we reroute over 1,600 vehicles per day through that same spot. We wouldn't just be closing a road, we'd be increasing risk elsewhere and putting more strain on an already unsafe intersection.

Final Thoughts – Wants vs. Needs

Commissioners, we want to leave you with this final thought: The request to close this section of Holder Road is based on want, not need. There is a major difference between someone wanting a road closed for personal convenience and needing a road closed for safety or infrastructure reasons.

There is no data to support the need for this road to be closed. There is no documented serious danger and no widespread issues. On the other hand, there is a large community that uses this road daily and depends on it for access, travel, and connection. Your role as Commissioners is to protect the public interest, and the public interest clearly supports keeping Holder Road open.

Thank you for your time, your service, and your consideration.

MEMO

To: Miranda Beadles, PE | Christian County Highway Administrator

Jacob A. Berry, PE | Traffic Engineer

RE: Holder Road – Road Safety Audit
Field Visit Summary

Date: 5/15/2024

Olsson Project #: A21-03699

This memo summarizes the existing traffic data and the consensus findings from the RSA walkthrough conducted along Holder Road between Highway ZZ and Route 14 in Christian County, Missouri. The field visit began the morning of October 19th, 2023, at 9:30 AM. The weather was clear and mostly sunny with temperatures in the 60s at the time. Relevant observations from three years of crash data along the corridor are also noted below.

Existing Traffic Data Summary

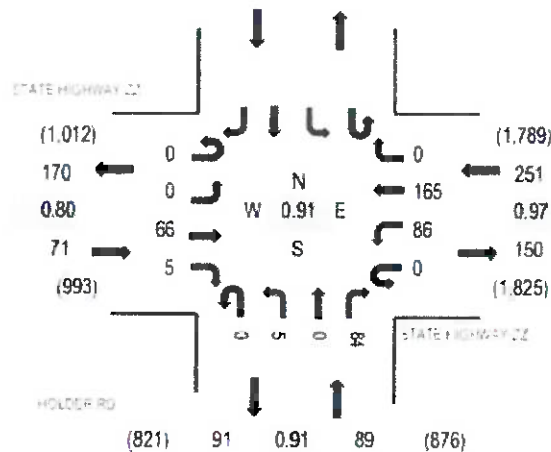

Traffic counts were collected at the intersection of Holder Road and State highway ZZ, Holder Road and Highway Route 14, and Holder Road and Woodland Dr on Wednesday, September 13, 2023. The average daily traffic (ADT) at each end of Holder was obtained for those vehicles that entered Holder Road; any traffic that continued EB or WB on Highway ZZ or Route 14, were not part of this analysis. The ADT for Northbound and Southbound traffic for Holder Road at Highway ZZ was a total of 1,697; ADT for Holder Road at RT 14 was 1,671, and 1,663 vehicles at Holder Road at Woodland Park Dr. Detailed traffic count data can be summarized in **Table 1** below.

Table 1: Traffic Count Data – Holder Road at Various Intersections

Peak Hour	Hours	# Vehicles	% Light	% HV
Holder Road at Highway ZZ				
Daily Total	12:00 AM – 11:59 PM	1,697	94.7%	5.3%
AM	6:15 AM – 7:15 AM	150	96.0%	4.0%
PM	4:30 PM – 5:30 PM	180	97.2%	2.8%
Holder Road at Route 14				
Daily Total	12:00 AM – 11:59 PM	1,671	94.8%	5.2%
AM	6:15 AM – 7:15 AM	155	95.5%	4.5%
PM	4:30 PM – 5:30 PM	170	99.4%	0.6%
Holder Road at Woodland Park Road				
Daily Total	12:00 AM – 11:59 PM	1,663	88.5%	11.5%
AM	6:15 AM – 7:15 AM	148	88.5%	11.5%
PM	4:30 PM – 5:30 PM	176	90.3%	9.7%

Turning traffic counts for the traffic going into Holder Road from Highway ZZ can be found on Figure 1. Figure 2 showcases the turns at Route 14.

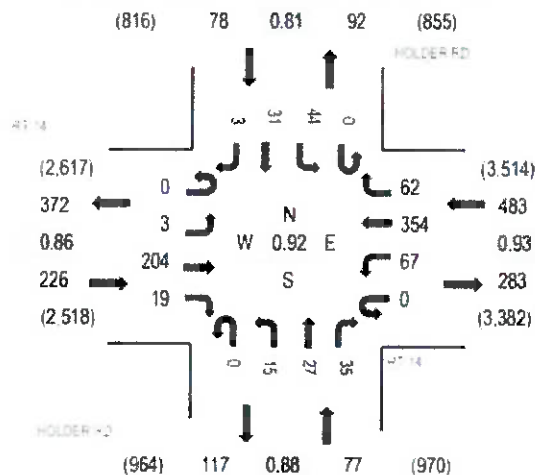

Peak Hour - Motorized Vehicles

Note: Total study counts contained in parentheses.

Figure 1: Shows all the turning counts for intersection of Holder Road at Highway ZZ.

Peak Hour - Motorized Vehicles

Note: Total study counts contained in parentheses.

Figure 2: Shows all the turning counts for the intersection of Holder Road at Route 14.

Traffic Speeds were only collected for Holder Road at the Woodland Park Intersection. The posted speed limit (PSL) at Holder Road is 35 mph. The average speed was clocked at 38.4 mph for the Northbound traffic and 38.0 mph for the Southbound traffic. The 85th Percentile was slightly higher. The Northbound traffic was 43.1 mph while the Southbound traffic was 42.7 mph. All this information can be seen in **Table 2** below.

Table 2: Speed Data for Holder Road at Woodland Park Road

	Northbound	Southbound
Average Speed	38.4 mph	38.0 mph
85th Percentile	43.1 mph	42.7 mph

To better understand traveling speeds, Figure 3 illustrates the distribution of traffic speeds on Holder Road. It reveals that a significant portion of vehicles, accounting for 76%, exceed the PSL. Within this group, 35% of vehicles surpass the PSL by at least 5 mph, and about 7% exceed it by more than 10 mph.

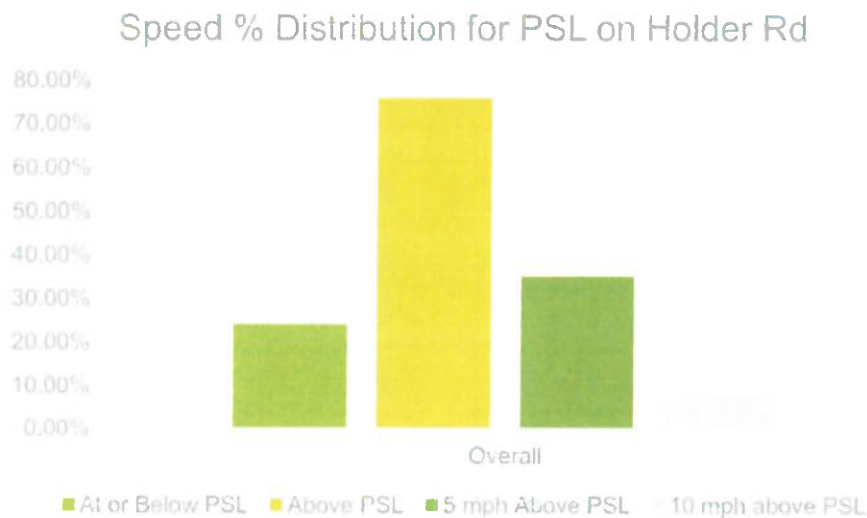

Figure 3: Bar chart illustrates the overall distribution of all the traffic speeds in regard to the PSL.

This section provides a summary of the traffic accidents reviewed for Holder Road for the 3-year period of September 22, 2023 – September 22, 2020. The analysis includes a total of 16 documented traffic incidents, categorizing each by relevance and primary cause to understand the dynamics affecting road safety. The focus was to isolate contributing factors such as driver behavior, environmental conditions, and specific traffic patterns that lead to these incidents. Below, a detailed categorization of these incidents is provided, emphasizing the specifics of each accident and the main reasons attributed to them.

While 16 accidents were reported during the timeframe used for this study, six of those accidents did not involve or have anything to do with Holder Road. These are listed on the first three rows of Table 3.

Table 3: Three Year Accident Analysis

	Number of Accidents	Notes
Total Accidents	16	
WBL on RT 14	4	These all came from cars traveling WB on RT 14 failing to stop safely or in time for the cars making left turns. Did not involve Holder Road.

NBT on RT N	1	Failed to stop at stop sign while NB on Route 14. Hit by a car on RT 14. Did not involve Holder Road.
Highway ZZ	1	Failure to stop due to a car in front suddenly stopping. Did not involve Holder Road.
Ice	2	Iced was cited as likely the main cause of the incident.
Speed	6	Failure to negotiate curves at traveling speeds were the primary reasons for incidents.
Alcohol-related	1	Alcohol impaired driver ran off the road.
Distracted Driver	1	Distracted driver veered into the centerline causing a car on the opposite direction to run off the road.

Road Safety Audit Summary

Lists of Attendees

- Sara Fields – Ozarks Transportation Organization
- Lt. Colton Craig – Christian County Sheriff's Office
- John McManus – Clever Fire Department
- Miranda Beadles, Brent Young, Scott Grider – Christian County Highway Department
- Nick Faribanks, Tim Rice – Christian County Highway Department (assisted with Traffic Control)
- Jonathan Peitz, Jacob Berry, Reid Catt, Andy Brewer – Olsson

North End of Holder Road, Near Route ZZ

- Comments highlighted the "tight and awkward nature" of the approach to the ZZ intersection. Dedicated turn lanes are not present.
- Traveling northbound, drivers must navigate a near 90-degree turn before the intersection. To some drivers, Holder Road might appear to continue straight (actually viewing Rt ZZ). Roadway curve warning signs and stop ahead signs may be needed.
- Additional signage was noted as a possible countermeasure to alert drivers to these unique characteristics.
- There were five crashes at this location from northbound on Holder Road related to going too fast at the curve leading up to the intersection.
- Turn lanes were also considered but are not found to be warranted at this time.

South End of Holder Road, Near Route 14

- Dedicated turn lanes are not present.
 - Several crashes were associated with left-turning vehicles on Rt 14.
- Intersection lighting is not present.
 - Five of the eight crashes near the intersection occurred in dark conditions.

Roadway Cross Section

- No shoulders are present.
- Pavement conditions were noted as "fair to good".
- Possible edge and blade patching was suggested.

- Lane widths were generally considered appropriate for the typical/desirable traffic conditions, though it was noted that some drivers are exceeding safe speeds for the road, and trucks may have difficulty maintaining lanes around curves.
- Some crashes were attributed to improper passing as well as tires being caught by the edge of the pavement/ditch areas.
- It was noted that there are no guardrails or barriers to separate traffic from hazard areas or to separate traffic from pedestrians/cyclists, but this did not appear to be a factor from the provided crash reports.
- Roadside ditches/drop-offs are present, and crown of the road was off-centered in multiple places, potentially contributing to drivers leaving their lane.
 - Further assessment and evaluation of these may be required.
- Some curves were noted to contain little/no superelevation. Improving this during overlay may be an option.
- Drainage near the low water crossing slab was noted as a concern. A box culvert is planned at this location in the future.

Hazardous Conditions

- Fast/aggressive driving in icy conditions were noted in several of the crashes.
 - Some RSA members noted that tree shade commonly leads to slow ice melt in the middle section but also the north end.
- The road is known to serve heavy construction traffic, at times encroaching out of their lane and potentially leading to roadway surface deformations.
- Aggressive driving behavior was noted as a known issue including speeding and lane departures.

Sight Distance

- Comments were made about limited sight distance, especially on curves.
- A common RSA observation was the desire to improve the conditions along curves where possible.
 - Over 40% of all crashes reviewed occurred in the curved "middle" section of Holder Road.
- Another clear consensus was that trees appeared to be a common obstruction along the route, impacting visibility.
 - Note that crash records do not explicitly cite trees as a common problem.
- Maintenance measures, such as trimming trees close to the road, were noted as potential recommendations to enhance road visibility, and possibly aid in the process of melting ice off the road.

Roadway Signage & Markings

- Signage was also identified as an issue. Some signs were damaged or missing.
 - For example, the "Stop Ahead" sign at the Route ZZ intersection was noted as missing.
 - Speed limit signs and/or speed feedback signs was noted as being potentially needed.
- Holder Road also lacks pavement markings, including center/edge lines along Holder Road or stop bars at major intersections.
 - Providing lane/edge markings was noted as possibly encouraging lane compliance as well as slower speeds by making the road "feel" narrower.
 - Several single-vehicle out of control and multi-vehicle head on and sideswipe crashes were noted along the corridor and may be reduced with these improvements.
