Oldfield, MO 65720

RE: Right of Entry for the Stewart Creek #2 Project, 1552 Stewart Creek Rd

Dear Iorg Family:

The purpose of this correspondence is to seek your permission to enter your property located just west of your home at 1552 Stewart Creek Rd and described as parcel 14-0.4-18-000-000-003.000 to perform bank stabilization and roadway armoring.

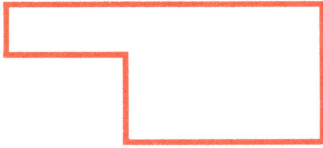

The work will involve excavation within County right of way, along with the placement of rock armoring within the right of way and extending into your property as shown on the attached sketch. After rock has been placed, a new fence will be placed at the existing right of way line through the disrupted area. The project team will take all necessary precautions to minimize disruption.

We anticipate the project to begin in late fall/early winter 2025 and be completed within 30 days.

Right of Entry Authorization

By signing below, you grant the Christian County Highway Department and its representatives, including employees, agents, and contractors, permission to enter your property for the purpose of completing the above-referenced work. This authorization will remain valid until the project is completed, after which the property will be restored to its original condition as much as possible.

If you have any questions or concerns, please feel free to contact me directly at 417-582-4394 or mbeadles@christiancountymmo.gov. Your cooperation and understanding in this matter are greatly appreciated, and we are committed to ensuring that the work is carried out with minimal inconvenience.

CHRISTIAN COUNTY
HIGHWAY DEPARTMENT

Thank you for your attention and consideration.

Sincerely,

Miranda Beadles, P.E.
Highway Administrator

Acknowledgment of Right of Entry

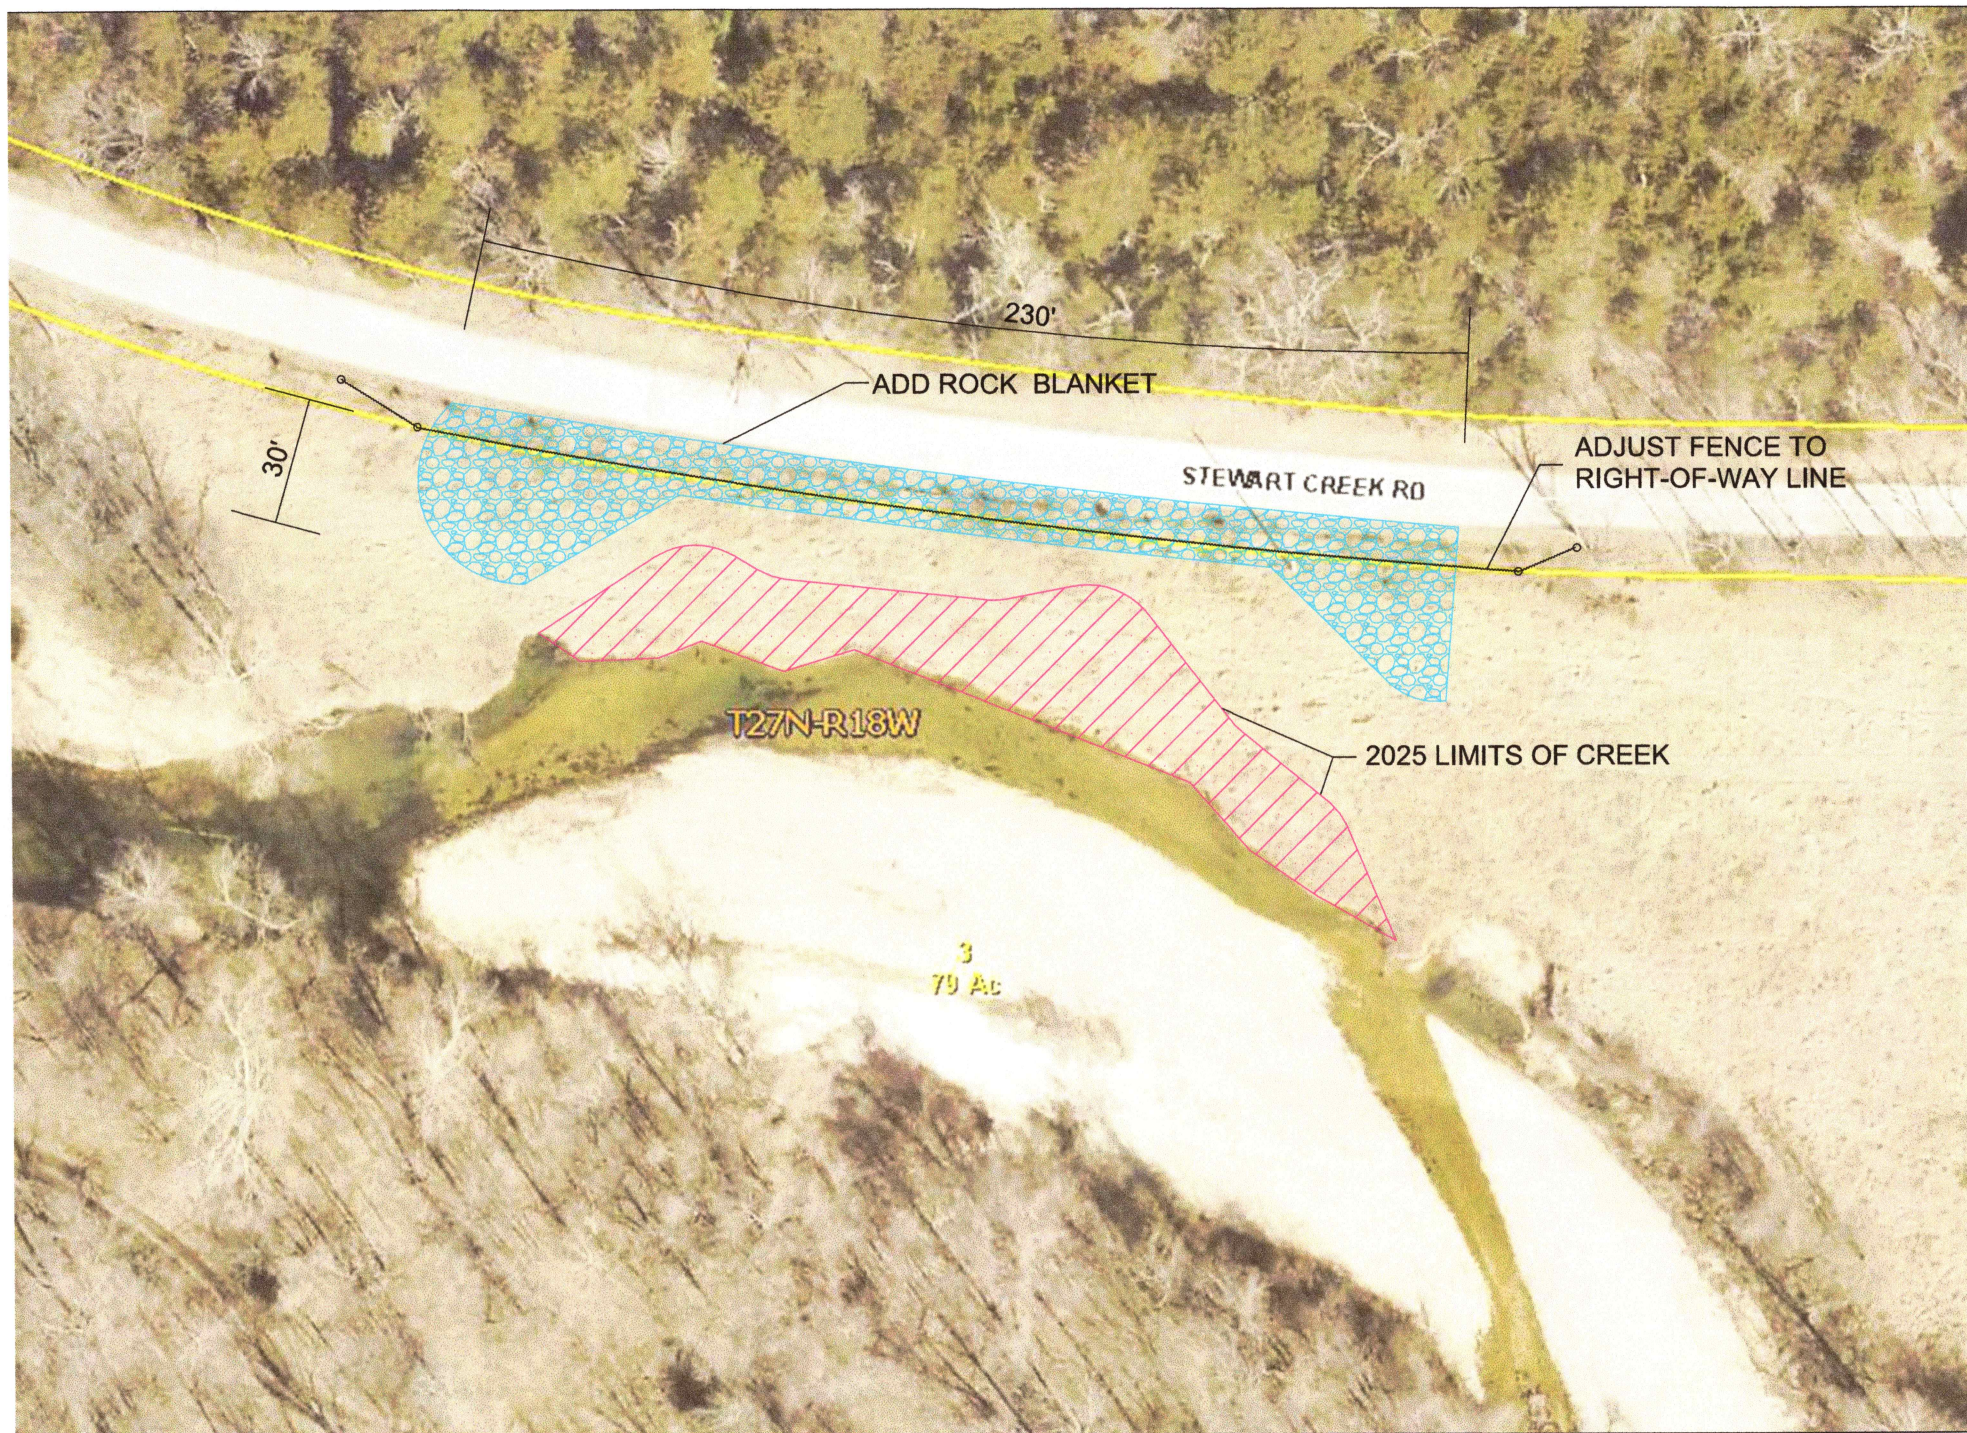

I, Linda Wallace and Iorg Family, as the owners of the property located at 1552 Stewart Creek Rd and described as parcel 14-0.4-18-000-000-003.000, grant permission to the Christian County Highway Department and its representatives to access my property for the purpose described above.
